VOLUME 57—NUMBER 98. NEWARK, OHIO, THURSDAY EVENING, JANUARY 17, 1907. TEN CENTS A WEEK.

FEARFUL CONDITION AT KINGSTON DEAD NUMBER OVER ONE THOUSAND

Stench from Putrifying Bodies of Men and Animals is Becoming Almost Unbearable---Food is Scarce

A GIGANTIC TIDAL WAVE SWEPT ANNOTA BAY

Great Stretches of Beach Have Been Washed Into the Sea---Sir Arthur Jones Narrow Escape---Latest News from the Stricken City.

KINGSTON, JAMAICA, Jan. 17—The second earthquake shock, almost as severe as the first which devastated Kingston Monday, occurred this morning. A number of already tottering buildings tumbled down, but it is not believed there is any additional loss of life, nor second conflagration. The English and Americans didn't escape death and in jury in Monday's disaster as at first reported. The first systematic search of the ruins, started today, brought to light the bodies of a number of white persons buried in the collapsed buildings. Fully 50 whites are unaccounted for and it is feared many lost their lives.

A search of the first few buildings is sufficient to show that the early estimates of casualties are entirely too low. Upwards of a thousand persons were killed, twice as many injured, and 90,000 are homeless in Kingston and vicinity. Figures are given today of the estimate by United States Consul Payne, that the property loss in Kingston alone will exceed $15,000,000.

The full death list will probably never be known because of the incineration of many bodies in the resulting fire. The United States government probably will be called on today to aid American victims of the earthquake. Every white tourist on the island is in danger because of food shortage. The natives can subsist a few days on fruits and vegetables. The stench from putrifying bodies of men and animals is becoming almost unbearable. The shores of the harbor of Kingston are sinking, and there is terror lest the city slip into the sea. Every wharf not destroyed by fire is said to have sunk into the sea or is rendered worthless. Several negro looters were shot by the guards last night.

GIGANTIC TIDAL WAVE REPORTED.

LONDON, Jan. 17—A gigantic tidal wave swept Annota Bay on the north coast of the island of Jamaica. According to a dispatch from Holland Bay just received by the Evening Standard, it is reported that the entire coast line has been changed and great stretches of the beach are sunk into the sea.

London, Jan. 17—Sir Alfred Jones head of the party of distinguished Englishmen who were in the Jamaica earthquake, had a narrow escape from death in the disaster. The Evening Standard today prints a dispatch from Holland Bay on January 15, giving details.

Sir Alfred had just finished luncheon at the Myrtle Bank Hotel, and had gone on to the hotel pier with Jesse Collings, M. P., and other members of the party, who were amusing themselves by tossing pennies to negro divers. Sir Alfred left the pier to return to the hotel. He had reached the open space in front of the building when the crash came. Both the hotel and the pier he had just left were destroyed. Being in the open Sir Alfred escaped all injury.

Gerald Loder was another who had a narrow escape. He was at the Jamaica club in Hanover street, at the time the building was demolished. He was thrown to the floor by the rocking of the building but a chair fell over him, protecting him from the falling timbers. He was dug out later with slight injuries.

Among those who are reported killed, are Dr. Maynier, Edgar de Cordova, Mrs. Robinson, Miss Lockett, three members of the Varley family, Mr. Livingston, chief clerk in the auditor's office, Mr. Sherlock Jr., and Dr. Gibbs. Mrs. Wedderburn, wife of the deputy inspector general is among the injured.

St. Thomas, D. W. I., Jan. 17.—It is estimated that 1,000 persons perished by the earthquake and fire at Kingston, that 90,000 persons are homeless, and that many hundreds were injured. According to late reports from Jamaica the property damage in Kingston alone is fully $10,000,000. All people have been warned to keep away from Kingston. The stench there is described as awful. There is no fodder for animals and famine is imminent. Money is useless. The banks have been burned, but the vaults are supposed to be safe. The misery on all sides is indescribable. Rich and poor alike are homeless. Provisions of all kinds are urgently needed. It is impossible to say where anybody can be found.

Looting and disorder, including raids on rum shops by the blacks, followed the catastrophe, but prompt repressive measures restored order. Panic prevails, however, especially as the earth shocks continued and great numbers of the city's population have fled to the neighboring countryside. Food supplies are beginning to be urgently needed, and the demand on medical supplies has exhausted the stock in hand.

Sir James Ferguson, vice chairman of the Royal Mail Steamship company, is among the killed. The loss of life is very great, but the exact numbers are not yet known. The dead are being buried under smouldering ruins. The mercantile community suffered most severely, warehouses falling upon them. Many professional men are dead and injured. The negroes are looting. Ghastly scenes are being witnessed. All the shops have been destroyed and all the buildings in and around Kingston are in ruins. Very few of them are safe to live in.

The governor and his party are safe. It is reported that an extinct volcano in the parish of Portland is showing signs of activity, but this has not been verified. No news has yet been received from other parts of the island of Jamaica, communication being very difficult.

The devastation would appear to have been confined to the vicinity of Kingston, one dispatch giving ten miles as the radius of the damage. The rest of the island, including Port Antonio, does not seem to have suffered severely.

American Consul's Dispatch.

Washington, Jan. 17.—The following cablegram was received at the state department from Jamaica: "Secretary of State, Washington: Fearful earthquake, followed by fire. Kingston destroyed. Hundreds of lives lost. Food badly wanted. Consulate probably destroyed. Fireproof safe. American Consul."

CARGOES OF FOOD

To Be Carried By Government Ships. American Consul Reports.

Washington, Jan. 17.—A brief dispatch was received at the state department, dated Jamaica, and signed "American Consul," stating that Kingston had been destroyed and hundreds of lives lost, and stating that food was badly wanted. As a matter of fact, the signature to this dispatch was misleading, for the consul is absent on leave from his post. It was assumed at the department that the vice and deputy consul, William H. Orrett, at Kingston, had sent the dispatch. A reference in the cablegram to the fireproof safe is understood to convey assurance of the safety of the consular records and papers. It was also regarded as possible that the message might have come from Nicholas R. Snyder, the American consul at Port Antonio, on the island of Jamaica.

However, the dispatch was regarded as warranting the taking of instant measures of relief. Indeed, the navy department had been in advance of this matter, for, through Captain Beehler, the officer in charge of the naval station at Key West, wireless communication was early established between the navy department and Admiral Evans, commanding the Atlantic fleet at Guantanamo, Cuba, and when Secretary Root later indicated the desirability of sending warships at once to the distressed island it turned out that Admiral Evans had anticipated the direction and had started on a torpedo boat destroyer, the swiftest vessel in the American fleet, for Kingston, ordering two of the slower battleships to follow as soon as they could. The appeal for food supply directed attention to the fact that, under ordinary conditions, none of the government supplies could be used for outside relief save by special authority of congress. That fact, however, did not prevent Secretary Metcalf from ordering two supply ships with full cargoes of food at once to Jamaica.

The war department, up to the close of business, had not acted upon the application for food, but it is assumed that, in anticipation of the passage of the necessary legislation by congress, it will at least take care to get supplies to the island ready for the distributing agencies. There are stores of food at San Juan, P. R., and at Havana that might be used for emergencies, leaving the department to draw later upon the large stocks at New York.

Mount Etna Active.

Catania, Sicily, Jan. 17.—The earthquake at Kingston, Jamaica, was coincident with increased activity of Mount Etna and slight earthquakes in the Medonian mountains. Professor Ricks, the director of the Mount Etna observatory, says that either the fire openings inside the crater, which were discovered in 1893, have increased in size or that eruptions are occurring inside the volcano, as from the outside nothing but smoke and a reflection of fire can be seen. The volcano is throwing out a considerable quantity of ashes, and subterranean detonations are heard. The present phenomena are similar to those of 1893, when one of the most severe eruptions occurred.

Admiral Evans' Mission.

Washington, Jan. 17.—Captain Beehler, at Key West, has informed the navy department that he has received a wireless dispatch from Guantanamo stating that Admiral Evans, commanding the Atlantic fleet, has sailed from that place on the torpedo boat destroyer Whipple for Kingston, Jamaica, to ascertain conditions and extend such aid as may be necessary. A later dispatch states that the battleships Missouri and Indiana have followed Admiral Evans.

Fresh Shock Felt.

London, Jan. 17.—The following cable dispatch has been received from a press representative, who accompanied Sir Alfred Jones and his party to Jamaica: "Fires broke out again. The negroes are looting the rum shops. At least 500 persons have been killed. There are weird and terrible scenes. Forty-five invalid soldiers were burned to death in the military hospital. Several shocks were felt today."

RECENT QUAKES
KILLED 17,320.

Calabria, Italy, September 8, 1905, 4,800 killed, 18 villages destroyed.

Esmeraldas, Ecuador, January 31, 1906, 1,300 killed, 850 injured, property damage $45,000,000.

Kioto, Formosa, April 13, 1906, 765 killed, property loss $11,000,000.

Kagi, Formosa, March 17, 1906, 6,807 killed property age $45,000,000.

San Francisco, Cal., April 18, 1906, 500 killed, 250,000 homeless, property loss $300,000,000.

San Jose and other cities in California, April 18, 1906, 378 killed, property loss $43,000,000.

Valparaiso, Santiago and Los Angeles, August 16 and 17, 1906, 2,270 killed, eight towns destroyed, property loss $275,000,000.

Kingston, Jamaica, 500 dead.

A RESOLUTION WAS OFFERED

COVERING EVERY POINT TOUCHED IN PRES. MITCHELL'S ADDRESS.

FAVOR MOYER AND HAYWOOD

Now Under Arrest For Implication in the Murder of Gov. Steunenberg. Socialistic Speeches.

Indianapolis, Jan. 17—Thursday was resolution bargain day at the convention of the United Mine Workers of America. The entire scope of internal trouble in the national union was covered by resolutions offered for consideration.

There were resolutions covering all the recommendation stated or hinted at in the reports of President Mitchell and Vice President Lewis. There were anti-child labor resolutions and anti-Chinese documents introduced.

It is understood that President Mitchell and Secretary Treasurer Wilson stand ready to do their best to influence the convention from taking any stand in the Pacific coast question that would appear antagonistic to the ideas of President Roosevelt.

A pro, Moyer-Pettibone-Haywood, resolution of some sort or other it is understood will be introduced and will meet the hearty approval of the delegates as a result of the meeing Wednesday night in the interests of the three indicted officers of the Western federation. The appeal for assistance to the delegates was made through A. M. Simon, but the meeting was broader in its scope than socialistic. It was for justice and reason and individual liberty, the overthrow of the rule of the capitalistic classes. Speeches were made by Simon, delegates Walker, Hayes, and H. E. Killday of Pennsylvania, a candidate for lieutenant governor of that state on the Socialist ticket. John Mitchell was present but took no active part.

VANDALS ATTEMPT TO WRECK A TRAIN

Raleigh, N. C., Jan. 17.—The Seaboard Air Line's train known as the Florida Limited, ran into an open switch two miles north of Raleigh early Wednesday but none of the passengers were killed or seriously hurt. Conductor Haddock, of Richmond, was bruised.

According to statements of the division superintendent there is strong evidence that the accident was due to the work of wreckers. Fire started immediately and the baggage car, the dining car and two Pullman sleepers were consumed.

The body of John C. Durbin of Harrisburg, Pa., who died at Palm Beach, Fla., was partially cremated.

The engineer declares that he saw four men hiding nearby just as his engine hit the switch.

TELEPHONE AND CAR SERVICE

Were Considerably Hampered Thursday by the Accumulation of Ice on the Wires.

The telephone and telegraph companies had their troubles Thursday morning when they opened their eyes on the glare of ice which accumulated during the night. Every tree, bush, telephone wire and trolley wire in the county were covered with a thick coating of ice.

The telephone men commenced receiving reports of damage done soon after daylight. As soon as the people commenced using their phones the discovery was made that several were rendered useless by the ice.

The wire chiefs of the two phones in the city state that while the damage was the cause of considerable inconvenience, there was no great loss.

The train dispatcher of the Columbus, Indiana and Eastern electric road, stated that there was a slight delay in getting the cars started on their runs, but after the ice was once cleared from the wires and tracks the cars were running on time.

There were numerous accidents reported caused by the icy pavements, but as a rule these were slight. In most parts of the town the ice had been sufficiently softened by the rain to make it easily removed.

Landslides along Elk river, in West Virginia, destroyed gas mains and Charleston may be without gas for several days.

About 2,000 emigrants, who were granted free passage, are awaiting transportation from Malaga, Spain, to New Orleans.

MME. MELBA, HER SON AND HER DAUGHTER-IN-LAW.

MME MELBA AND HER SON MR GEORGE N. ARMSTRONG.

MRS GEORGE N. ARMSTRONG.

New York, Jan. 17—Tall, slim, slighting stoop shouldered, clad in a gray suit and a gray overcoat with a fine ruby glowing from a gray silk four-in-hand tie, George Nesbit Armstrong, son of Mme. Melba, descended the gang plank of the Cunard line steamship Carmania today, accompanied by his wife, a daughter of Sir Jocelyn Otway, of Otway Hall, Northumberland.

Mme. Melba was not on the pier to greet her son and daughter-in-law, but several persons whom she had designed to meet the couple were on hand among them her private secretaries, Misses Murphy and Moore, and Mr. Heck of Carnegie Hall, and Mr. Straus of Hemmerstein's.

Mr. Armstrong's marriage which took place in London recently, was the outcome of a romance which began on the upper Thames. Miss Otway's parents had taken a house on the river, not far from that of Mme. Melba. The young persons met at a garden party and forthwith fell in love. They kept their attachment a secret until last spring and then announced their intention of being married.

Their parents objected on account of their youth, as Mr. Armstrong had just attained his majority, and Miss Otway was not out of her teens. Last winter the objections were withdrawn and on December 18 they were married in London in the presence of a gathering including Prince Francis of Teck, the Duke and Duchess of Devonshire, Lord and Lady Mount Stephen, Lord and Lady Brassey and the Earl and Countess of Cadogan.

GREAT EPIDEMIC OF SCARLET FEVER

Is Now Raging in Chicago Resulting in the Closing of the City's Schools.

Chicago, Jan. 17—The great epidemic of scarlet fever and diphtheria in the history of Chicago and its suburbs is now raging.

Many of the schools of the city and its environs will be closed by the state board of health today in an effort to check the spread of the disease. The epidemic on the north shore is attributed by the health board to infected milk shipped from Genoa Junction, Wis., where the diseases are rife.

PRAYED

Before He Plunged to Death from a Roof in Sight of Scores of People.

New York, Jan. 17.—Adolph Pallock, a Bohemian, 50 years old, hurled himself to death from the roof of a five-story building in Avenue A, in the sight of several hundred persons, who had been attracted by his peculiar actions. Several times he was seen to approach the edge of the roof and look over into the street, and then fall on his knees in an attitude of prayer. Finally, Pallock rose, and, placing his hands over his eyes, sprang out into space. His body was crushed almost to a pulp. Pallock had been in poor health and several times had threatened his life.

Emperor Menelik of Abyssinia is ill and his indisposition deprives his people of their great physician. For certain forms of illness they go to him, personally if possible, or send a proxy. He "touches" them for their ailments and straightway they recover, it is said. At any rate, having thought themselves ill, they now believe themselves cured.

One Italian workman was killed and another badly injured by the explosion of a ton of dynamite in the South Shore company's quarry, near Monroe, Mich.

MASKED ATTACK ON MORGAN STOCKS

IS TO BE MADE IN WALL STREET TO TEST GENIUS OF "JACK" MORGAN.

Who Has Assumed Full Control of the Vast Interests of His Father Since January 1.

New York, Jan. 17.—Wall street is waiting today for a heavy masked attack on securities of the Morgan railroads and corporations to test the financial genius of "Jack" Morgan, who succeeded his father, J. Pierpont Morgan, in the conduct of the affairs of the great Morgan banking firm. The elder Morgan has withdrawn all active participation in the financial world. Beginning with the attack on the Morgan stocks made yesterday, when the assault made on the Southern and Erie railroads, leading financiers are wondering if "Jack" will display his father's market acumen and put to route his foes. Young Morgan took charge of the business the first of the year. Morgan Sr., retires with a fortune estimated at $150,000,000. He will spend his time with books and rare art treasures at home.

FLOOD SUSPENDS SHIPPING.

Owensboro, Ky., Jan. 17— After today there will not be a steamboat moving anywhere on the lower Ohio. Agents were notified by the packet companies yesterday that the boats would suspend operations until the flood passes.

The water is over the Indiana shore from Rockport to Indian Hall a distance of nearly 20 miles. Newburg is the only town between Owensboro and Evansville where boats can land and up the river there are dozens of landings that can not be made.

Thousands of acres on the Indiana side is flooded. The inundated section is 17 miles long and averages five miles wide. Many of the residents of this section have fled to the hills, and others are occupying the second stories of houses.

A SEVERE FLOOD IS THE OUTLOOK

THROUGHOUT THE OHIO VALLEY AND WEATHER BUREAU SENDS WARNING.

CONDITIONS IN CINCINNATI

Are Alarming and Depots Are Abandoned and Factories Closed —At Other Points on the Ohio.

Cincinnati, Jan. 17.—The following has been issued by the local weather forecaster today:

"The Ohio river continues rising from Parkersburg down, and the rainfall is general. More rain is indicated. At all points in the Cincinnati district the water is over the flood line and the end of the rise is not yet in sight. At Cincinnati the river will pass the 60 foot mark before tomorrow, and will continue rising tomorrow and Saturday."

Today's official mark showed the Ohio at 56.5 feet and rising at the rate of two inches per hour. Traffic generally in the river district is suspended and hundreds of cellars are filled. Three hundred families, living on the river front at Newport, Ky., are driven from their homes. Hundreds are thrown out of employment by the closing down of manufacturing plants.

Cincinnati, O., Jan. 17.—A 60-foot river stage by 8 o'clock tonight is anticipated, with more water coming. The Ohio has been rising more than an inch per hour.

Before midnight the water reached Grand Central depot and all trains are now leaving from the Eighth street depot. A stage of 56 feet will cripple business in the bottoms and west end. Factories have been closed and many employes are idle. Water is in the cellars of more than 500 business houses, running from the river front to Third street, in the down town section. Water seeping through the drain at the roundhouse of the Big Four, at Mills street, is covering the tracks. The tracks are set six or eight inches above the ground.

Tenement houses in Cincinnati along the river front have four inches of water in the cellars. In Covington, Newport and other cities across the river, water is in the cellars. River packets are unable to pass under the bridges.

Local Forecast Official Bassler said: "The weather conditions are likely to result in more rain in the Ohio valley. Hence the river situation is serious, since the water is already above the flood stages. Without more rain and with the river falling above Wheeling, there are still two or three days more of rising waters to be expected at Cincinnati. There should be scant 60 feet at Cincinnati by evening, with more water coming. Heavy rains would, of course, augment this rise."

Weather Bureau's Bulletin.

Washington, Jan. 17.—The weather bureau issued the following flood warning, announcing the steady rise of the Ohio river and more serious flood conditions below the mouth of Little Kanawha river and the lower Mississippi river: "It is still raining in the Ohio valley, and more rain is indicated for Thursday. These will render the situation still more serious below the mouth of the Little Kanawha and preparations should be made for severe floods. The Mississippi, below Cairo, is above flood stages over practically its entire length, and the additional rise now coming down the Ohio will prolong and accentuate the lower Mississippi flood conditions."

Outlet Defective.

Portsmouth, O., Jan. 17.—A state of alarm has seized the city over the discovery that the flood tide outlets are out of working order. The water from overflowing sewers has filled the basement of the Masonic Temple in the heart of the city, and many other business houses. Much damage to property is expected when the river reaches the 55-foot mark, which now seems certain. Dozens of families have been forced to flee from their houses in the submerged district.

Floods in Eastern Kentucky.

Louisville, Ky., Jan. 17.—The eastern half of Kentucky is facing a flood situation, which, although it has thus far done only moderate damage, promises to become grave. Every stream in the eastern part of the state is out of its banks and rising rapidly. Only a sharp cold snap can prevent serious damage, and as this does not seem to be in sight, the losses within the next two days will probably be heavy.

Situation at Evansville.

Evansville, Ind., Jan. 17.—It is now pretty generally conceded that a stage of 45 feet or more will be reached by the middle of next week. Rain fell in many places along the lower Ohio river. Warm and threatening weather prevails in this section. With more rain along the river, it is apparent that a greater flood stage than that of 1884 will be reached.

FAIRBANKS LEFT SPRINGFIELD WHEN HE HEARD OF INDICTMENT

Arrangements Made at Steubenville for Bond to be Furnished for Young Groom---Girl's Kind Act Rewarded By $20,000 Bequest---Important Buckeye News.

Steubenville, O., Jan. 17—Frederick C Fairbanks of Springfield O son of Vice President Fairbanks, appeared voluntarily in court Thursday morning having come in during the night. He was accompanied by his uncle, N. H Fairbanks and Attorney Chas. W Stewart, of Springfield. He pleaded not guilty to subornation of perjury and his bond was fixed at $500, and two prominent citizens went on it Fairbanks while in court was the recipient of many expressions of sympathy and regret from members of the bar and citizens over the embarrassment he is placed in

Springfield, O, Jan. 17—Fred C Fairbanks, son of Vice President Charles Fairbanks, left this city on Wednesday for parts unknown, pending an investigation of the indictment for perjury returned against him Tuesday by the grand jury at Steubenville.

It is reported that Mr Fairbanks has gone to Washington, D. C., to confer with his father in response to a telegram received, but this cannot be verified. His wife is still here She admits that her husband has left the city, but declines to make known his destination.

Sheriff Almoney received a message from the sheriff of Adams county to arrest and hold Mr. Fairbanks, but the telegram was received after the young man had taken his departure. It is thought that Mr. Fairbanks anticipated this move and went away to await an investigation of the case.

As soon as N. H. Fairbanks and Attorney Charles Stewart make arrangements for the young man to appear and answer to the charge it is stated that Mr. Fairbanks will go to Steubenville and enter his appearance. He will enter a plea of not guilty and prepare to fight the case

BOND PREPARED.

Steubenville, O, Jan. 17—Charles Stewart an attorney, and N. H Fairbanks of Springfield, O, an uncle of Frederick C Fairbanks, son of the vice president, arrived in the city on Wednesday and read the Fairbanks indictment. They arranged for two wealthy citizens to go on the bond of $500 for young Fairbanks appearance.

The two men found the sentiment **locally to be a matter of general regret over the indictment** Their **defense in asking that the indictment be nollied is that Fairbanks did not make the affidavit necessary to procure the license. Sheriff Voorhees telegraphed an order to the Springfield sheriff to cause the arrest of Fairbanks.**

N H. Fairbanks and Attorney Stewart, learned while here that the indictment also includes subornation —that is, procuring another to swear to false statements. In this case it was a newspaper man, it is said, who secured the information on which the marriage license was issued

The uncle and his attorney interviewed the newspaper man before leaving for home, and feel hopeful that the outcome for the young groom will be all right

According to a member of the grand jury, young Fairbanks was the victim of undue prominence Others poorer and less important were being indicted, and the jurymen felt it unfair to indict them and not a more prominent man, whose case had been the subject of much publicity, so he was indicted also.

BLACKMAIL SUSPECTED.

Pittsburg, Pa, Jan 17—According to information received here by the Scotts, the family of Mrs Frederick Fairbanks, the bridegroom has disappeared from Springfield, O He left shortly before the sheriff received orders to arrest him His wife still remains at Springfield, it is said. Just where young Fairbanks is gone nobody seems to know but it is thought here that he has gone to Washington to consult with his father, who in his capacity of vice president of the United States is presiding over the session of the Senate

It is hinted here that blackmail is suspected, and an effort will be made to get at the bottom of the affair.

MANY SCHOOL CHILDREN ARE SICKLY.

Mother Gray's Sweet Powders for Children, used by Mother Gray, a nurse in Children's Home, New York, Break up Colds in 24 hours, cure Feverishness, Headache, Stomach Troubles, Teething Disorders, move and regulate the Bowels, and Destroy Worms. Mrs. Emily Maronn, Meridian, Ct, says: It is the best medicine in the world for children when feverish and constipated.' Sold by all druggists or by mail 25c Sample sent FREE Address Allen S. Olmsted, Le Roy, N. Y. 3

Ohio Fair Managers.

Columbus, O, Jan 17—The Ohio State Association of Presidents and Secretaries of Fairs and Expositions adopted resolutions censuring the president of the American Trotting association for "the discourteous and unfair treatment accorded to the representatives of the Ohio Fair Managers' association" at the biennial meeting in December last, declaring that inasmuch as the membership of the American Trotting association is composed chiefly of county fair associations, the fair associations ought to have representation on the board of appeals, and requesting that the system of proxies, as conducted by the American Trotting association, which is declared to be 'pernicious in principle and unfair in the treatment of its members" be abolished

A committee was appointed to prepare plans for a charter and rules for the organization of a fair protective association, not including the racing feature.

Fifty Thousand for Workmen.

Marion, O, Jan 17—Because of faithfulness on the part of the employes of the Marion Steam Shovel company, President George W King announced today that $50,000 would be paid to all operatives in the employment of the company July 1, 1907, for continuous employment prior to this date back to January 1, 1906 The money is divided among the employes in proportion to wages and continuous employment, and is to be paid with the regular pay, July 10, 1907.

Not Exempt From Taxation.

Columbus, O, Jan 17.—Attorney General Ellis decided in the case of the Women's Education and Industrial union of Columbus that only that part of the property of a charitable organization which is directly employed in the work of the organization is exempt from taxation. The Women's union rents a portion of its building and the attorney general holds that the association must pay taxes on its building in proportion to the value of the whole that is thus rented.

Leak in Gas Pipe—Women Dead.

Cleveland, O, Jan 17—Misses Anna Augusta White, aged 76, and Mary L Blair, aged 60, were found dead at their home here by a neighbor The house was filled with natural gas fumes and asphyxiation evidently caused the death of the women Investigation disclosed a leak in a gas pipe The women lived alone Miss Blair was a teacher in the city schools for 40 years past, retiring a few weeks ago.

Craved Public Notice.

Massillon, O, Jan 17—Albert Baus, a youth, was found bound and gagged in a mail wagon in the rear of the postoffice "The postoffice has been robbed," whispered the boy to the police when they discovered him Under the confession of the sweat box he confessed he had been a reader of detective stories, and to satisfy his craving for an exciting escapade and public notice he had bound and gagged himself.

Testimony of Motorman.

Cincinnati, O, Jan 17—James Hall, the motorman hurt in the wreck of the Warsaw avenue car three weeks ago, when two persons were killed and many injured, swore at the coroner's inquest that he complained to his superiors that the brakes were not working before he started on the trip, and was told to go ahead, as the fatal trip was his last for the day

Harris and Burton the Orators.

Columbus, O, Jan 17—Governor Harris has accepted an invitation to attend the banquet of the Tippecanoe club at Cleveland on Lincoln's birth day, Jan 20 Congressman Burton will also return home from Cleveland to attend the banquet and politicians in the state capital are disposed to attach some political significance to the coming celebration

Selected Officers.

Columbus, O Jan 17—Thomas Johnson a well known coal operator of this city, was elected president of the Ohio Short Horn Breeders' association Joseph P Staley of Sidney was elected vice president, and Reid Carpenter of Mansfield, retiring president, was made secretary

Brave Engineer.

Crestline O Jan 17—The Pennsylvania railroad suffered a wreck here when a westbound train ran through the derail ditching the engine and score of cars and tearing up two main tracks for a distance of 300 feet No one was seriously injured The engineer stuck to his engine until it was completely wrecked, miraculously escaping death

Pays to Be Kind.

Findlay, O, Jan 17—While attending business college at Toledo three years ago. Miss Ethel Bish, residing at Arcadia, rendered a service to an old woman, who was a total stranger to her. She now is informed that Mrs Mary Kendall of Oswego, N. Y., bequeathed her $20,000.

Surrendered By Bondsmen.

Hillsboro, O, Jan. 17—Mabel Perry, of Springfield O, a witness in the Colvin homicide case, who is under indictment for giving false testimony in the trial of that case, was surrendered by her bondsmen and is now in jail here At the trial she testified that she heard the defendant make threats against the man he afterward killed. The next day she created a sensation by coming into court and swearing that she had been hired to testify falsely on the previous day.

Prosecutors as Tax Collectors.

Columbus, O, Jan 17.—Attorney General Ellis has rendered an opinion upon request of Prosecuting Attorney B F Welty of Allen county for advice that prosecuting attorneys cannot be employed to collect delinquent personal taxes The attorney general also gives an opinion that in computing the rate of compensation under the new county salary law that no account can be taken of any fractional part of a thousand population in excess of an even thousand

Section Men Killed.

Urbana, O, Jan 17—Walter Poorman and John Schlosser of Piqua, O., who were working near this city on the Pennsylvania railroad with the construction company, were struck by the fast Pennsylvania mail train and instantly killed

Attempt to Burn Church.

Columbus, O, Jan 17—Incendiaries with an unknown motive made a determined attempt to burn the Plymouth Congregational church in West Fourth avenue, near High street, Wednesday Fire was found in three places, and while the prompt work of the fire department kept the loss under $500, it is not the fault of those responsible for the work that they were not successful

The fire occurred shortly before 4 o'clock. At 3 48 Mrs T W. Huffban, 42 West Third avenue, first telephoned the department

Almost at the same time alarms were sent in from two boxes

When the department arrived the basement and auditorium of the church were so filled with smoke that it was only with the greatest difficulty that the firemen could fight their way through.

Loss, $550, fully insured.

Trinity Calls Rector.

Columbus, Jan 17—To the vacant rectorate of Trinity Episcopal church, Broad and Third streets, a call has been extended to Rev. Irving Reese of Milton, Mass.

A special committee of the vestry, which was empowered to make a selection of a successor to Rev. Julius W Atwood, who recently resigned to accept a call to Phoenix, Ariz., heard Rev Mr Reese preach last Sunday at Erie, Pa, and was so well pleased that it was decided at once to ask him to come to Columbus Rev. Mr Reese was here Monday and is said to have been delighted with the opportunity offered him.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result

Sold by leading druggists Send 10c in stamps for sample to The Herpicide Co, Detroit, Mich.

Two sizes—50 cents and $1 00.

CONSULT DR. BROWN—OHIO'S WELL KNOWN SPECIALIST IN

PRIVATE AND BLOOD DISEASES OF MEN

MY GUARANTEE—No Charge for Service Unless Cured

Numerous Pelvic Diseases

AND THEIR DANGEROUS DEVELOPMENT

Blood Poison If you have sore throat, mucous patches, pimples, copper colored spots, [illegible] and bone pains, falling hair or any other symptoms of Contagious Blood Poison, in either primary, secondary or tertiary stages, come to me and be forever rid of it My treatment quickly destroys the virus, clears the skin, purifies the blood and thoroughly cleanses and eradicates all traces of the poison from the system I stop its progress, and all danger of transmission or recurrence is removed

The treatment I administer for Blood Poison acts rapidly upon the diseased blood cells, expelling the poison therefrom and soon shows to the entire satisfaction of the patient that the deadly virus or poison is being forever exterminated from the system and the cure effected I want every victim of this disease who has heretofore treated without benefit, and WHO REALLY DESIRES TO BE CURED, to call upon me here at my offices or to write me, when I will take pleasure in explaining to you a treatment that is DEATH TO DEADLY BLOOD POISON This treatment contains nothing that is injurious to the health of the patient, but strengthens and rebuilds him from the damaging effects of the disease, causing him to increase in flesh the skin to regain its healthy color and condition, and in fact by removing the poison from the system, restores to the sufferer that which the disease has impaired IT WILL COST YOU NOTHING TO CONSULT ME ABOUT YOUR CASE

Nervous Debility Men whose manhood is diminishing—and there are thousands of them—owe it to themselves to take prompt steps to relieve a condition which ultimately leads to misery and helplessness At no time in a man's life does he need more the service of a skilled specialist

I give each and every case individual treatment and my original perfected methods are safe, sure and certain in bringing back strength and vigor They build up the physical, mental and vital man, permanently stop all drains or vital losses, emissions, invigorate the wasted organs and soon restore the sufferer to ROBUST MANHOOD

Piles and Fistula These diseases absolutely demand the diagnosis and treatment of a skilled specialist I possess a knowledge of these diseases which has been acquired by years of study and experience I attribute my great success in the cure of the same to the fact that I remove the primary cause instead of attempting first to eradicate the local symptoms This is the reason surgery in the treatment of Piles and Fistula has been a complete failure to cure, because the knife does not remove the cause of the disease, and thousands throughout the United States have been left perfect wrecks after the use of the knife

I especially want those to consult me who have treated with other physicians and have not received a cure, and any physician who has a stubborn case under his care is invited to consult me by appointment.

Varicocele Varicocele is the most treacherous and silent and certain in its ill results of all [illegible] ailments of men. It makes its appearance, apparently without cause, but never ceases in its destructive influence until it robs a man of all his vigor, vitality, making him a complete physical wreck

Under my treatment a healthy circulation of blood is quickly re-established to the parts, the wasted glands and organs are enlarged and permanent strength and vitality are given to the organism. Every trace of weakness disappears, drains and emissions cease, the weakened system is strengthened, you become stronger and better in every way and will soon possess the sense of well being which accompanies good health and robust manhood.

Stricture My treatment gives instant relief from pain, stops all inflammation, emissions, and permanently frees the urinary canal from all obstruction I remove every trace of the disease without resorting to the pain or danger of the old time operation method

In justice to my treatment, which has never yet met with failure, where used according to instructions I only ask a thorough investigation to make you, if you are a sufferer from this often fatally neglected disease, one of the many who are today indorsing my methods and sending others to me for treatment.

Hydrocele My method promptly reduces the enlarged condition of the scrotum and speedily and permanently restores the part to perfect health and soundness No pain or detention from business A speedy and lasting cure guaranteed in every case I accept for treatment

Kidney, Bladder and Prostatic Diseases I master these Diseases because I have found new and mighty weapons with which to fight them My treatment goes direct to the root of the trouble, the proper remedies are supplied, and diseased conditions are overcome by prompt and effective measures and the patient is soon dismissed perfectly cured Do not allow these terrible diseases to get the start of you, at the very first symptoms consult a reliable specialist. Your very life may depend upon prompt action.

Skin Diseases and Ulcers

I cure all acute, chronic, cancerous tumors and ulcers without burning pastes or salves Skin diseases, such as pimples, boils, eruptions or eczema quickly disappear under my special and modern methods of treatment

A NATION OF CRIPPLES

RHEUMATISM BEYOND CONTROL.

URIC-O TREATMENT ADVISED.

Very few people nowadays are free from some form of Rheumatism In fact it looks as though the disease was fast crippling our nation People of means are trying the great specialists and they go from East to West and to all parts of the earth in search of medical help and relief

The greatest boon to mankind has recently been brought about, especially to those who suffer with Rheumatic Acid Poisoning It is a harmless remedy called URIC-O A treatment for the blood, bladder and kidneys This marvelous remedy, taken internally, acts in a thorough manner on the blood, relieving those terrible pains that nearly craze the mind URIC-O is made for Rheumatism only, and it is a positive cure for the disease in all its forms It is harmless and pleasant to take, containing no poison, alcohol or whisky, and, if taken as directed, will cure each and every form of Rheumatism no matter how bad.

Druggists sell URIC-O at $1 00 per bottle, or it will be sent at above price by the SMITH DRUG COMPANY, SYRACUSE, N. Y. Liberal size samples and circulars will be forwarded free to all who apply for same.

Uric-O is sold and recommended in Newark by Frank D Hall, North Side Square.

SIGN TREATY

Regulating the Disposition of the Waters of the Rio Grande.

Washington Jan. 17—Secretary Root and Senor Davalos, the Mexican charge signed a treaty regulating the disposition of the waters of the Rio Grande The basis of the treaty is the recognition by the United States of the right of Mexico to the use of a certain proportion of the waters of the river now impounded by the great dam at El Paso for irrigating purposes on the Mexican side of the boundary The precedent set will, it is understood have an important bearing on the negotiations which are in progress concerning the vexed questions of international rights to the use of streams of the Canadian border.

Sweet potatoes are more used than anything else to make alcohol with in the Azore Islands.

HEBRON NEWS

Her Sense of Justice Wouldn't Stand For It

"TWO hundred dollars, please."

The New York drawing room was crowded with a fashionable throng on the eve of departure. The hostess, standing near the doorway, addressed her remark to a quiet, innocent looking lady who was about to pass through and who now viewed her with astonishment.

"Two hundred dollars!" she exclaimed. "What for?"

"That is your loss at bridge for the evening," said the hostess.

"But," exclaimed her guest, "I had no idea that we were playing for money. Why, I wouldn't do such a thing. What can you mean?"

"You don't suppose for one instant," said the hostess haughtily, "that we were playing for our health, do you? It is the usual thing."

"But I haven't got the money with me."

"Then you can send me a check—at once."

The guest, her sense of justice fully aroused by the imposition practiced upon her, drew herself up proudly.

"I am, as you know, not long a resident here," she observed. "It seems to me nothing short of robbery. Suppose I refuse to pay this money?"

The hostess shrugged her shoulders meaningly.

"If you do," she replied, with a fine, cutting contempt, "there is no hope for you. From this time forward you will cease to be an honored and respected member of our sacred circle."—Tom Masson in Judge.

Vesuvius Disturbed.

Naples, Jan. 17.—Professor Matteucci, director of the observatory at Mount Vesuvius, reports increased agitation of this volcano, coincident with the Kingston earthquake.

Miss Alice Perry has been appointed county surveyor of Galway county, Ireland, as successor to her deceased father.

Union barbers of the country are agitating the establishment of a home for aged, sick and indigent barbers.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Dr. Shoop's Rheumatic Remedy

R. W. SMITH.

FLOOD CONDITIONS AT BUCKEYE LAKE

An interesting situation is reported from Buckeye Lake. The water in that usually quiet and Pacific expanse has all but reached the limit of the danger point, and, according to the statement of Col. Wm. Harlowe, the veteran fisherman and sportsman, of that region, there remain not to exceed a half dozen inches below flood stage.

Already, says Colonel Harlowe, the reservoir is being tapped, and the heavy rush of waters drained off towards the mouth of the Licking. As the situation is at present, the waters have backed up and overflowed the fields and farms in all directions. The stream that rushes down through Hebron is full to the banks, and is pouring an immense volume of water into the main reservoir.

The effect is most noticeable so far as the animal creation is concerned. Frogs, snakes, turtles and fish are seen by the hundreds. Snakes and frogs usually dormant at this season have taken on a new life, and are to be seen in abundance. Monday Chas. Rader, employed on C. Edward Born's island, landed three of the largest green frogs ever seen in that region. They weighed more than one-half pound each.

Outside the main reservoir, where the waters have backed up into the fields, multitudes of fish can be seen in the water. In the surrounding regions rose bushes are budding rapidly and nature seems ahead of the season at last sixty days. The ice men are deeply apprehensive of the situation. The December freeze did not exceed four inches and, with the rapid and turbid Hebron stream, bank full, pouring its warm and fresh water never yet frozen into the reservoir, they fear that the chances for cutting ice will be slim, indeed, as it wil require at least a week of the severest weather to freeze this new water to a sufficient depth for ice harvesting.

The above report printed in a Columbus paper is denied by residents near Buckeye Lake. The water in the reservoir is very high, but the flume gates are opened when the danger point is reached and the water is allowed to escape before any damage results.

A telephone message this afternoon from Mr. Edward Grandstaff denies that ther is any danger from the high waters. Monday the water reached within 12 inches of the danger point and three flume gates were opened. Tuesday a fourth was opened and this reduced the volume of water until it was 17 inches below the danger line.

There has been some overflow but no more than there has been at the usual spring freshets. The Licking creek has left its banks near the trestle north of the park, but no damage has resulted.

John Chinaman.

A prominent lady in San Francisco engaged a Chinaman as cook. When the Celestial came, among other things she asked him his name.

"My name," said the Chinaman, smiling, "is Hang Shoo Wang Ho."

"Oh, I can't remember all that," said the lady. "I will just call you John."

John smiled all over and asked:

"What your namee?"

"My name is Mrs. Franklin Preston Benton."

"Me no 'member all that," said John. "Chinaman he no sabey Mrs. Franklin Preston Benton. I call you Tommy."—Harper's Weekly.

DEPOSITORS IN SAVINGS BANK MAY BE PAID IN FULL

Suit Brought to Enforce the Stockholders Liability--Lewis A. Nunn Has Begun Suit for Damages Aggregating $30,000 for Alienation of Wife's Affection Court House News.

In the case of Edward Umstaedder and others against the Newark Savings Bank company, suit for enforcement of stockholders liability against the stockholders of the Newark Savings Bank company, Hannah S. Allen, widow of the late Judge D. A. Allen by her attorney has filed an answer in the Common Pleas court in which she denies that the stockholders of the bank were liable for any debts of the bank which accured after November 23, 1903, the date when the amendment to the constitution went into effect. She also denies that the stockholders are indebted to the depositors in the bank, except those who were depositors therein from November 23, 1903, to May 20, 1904, and not to them except for the lowest amount on deposit on any day between those dates. In the same case the heirs and children of Reinhardt Scheidler and the representatives of his estate have filed proofs of their claims against the estate, asking that the stockholders be assessed to pay the same.

Thursday morning Mrs. Allen filed a motion to require Wales S. Collins. The Scheidler Machine Company, Louise S. Collins. Wales S. Collins, agent, Henry A. Scheidler and Oscar Scheidler to require them to amend their respective claims on account of general deposits in the bank of the Newark Savings Bank company, and if additional accounts or any of them existed on November 23, 1903, then that said accounts be amended so as to show the lowest amount on deposit to the credit of such depositor on any day or at any time between November 23, 1903, or May 20, 1904, inclusive.

If this claim is held to be true it will make a vast difference to the stockholders upon their individual liability, and will enable the creditors of the bank to be paid in full, and it is believed without requiring the stockholders to be assessed to the full value of their stock.

Lewis A. Nunn has commenced suit in the Common Pleas court against Charles Houghton and Earl DeVault for $15,000 damages for alienating the affections of his wife. Plaintiff says he has resided with his wife at Logansport, Ind., and in Utica, O, since 1892 until January 4, 1907, when Charles Houghton, a brother of Mrs. Nunn, and Earl DeVault, an unmarried man, and a friend of Charles Houghton, induced his wife to leave him; that they offered to pay her large wages and the profits of a boarding house in which DeVault was to be a boarder, if she would separate herself from the defendant. Plaintiff says that he has endeavored to persuade his wife to live with him again, but has been unable to do so on account of the power and influence of defendants over her. Plaintiff asks damages in the sum of $10,000, and for special damages growing out of the separation, and the breaking up of his home he asks $5,000. He has also commenced an individual suit against DeVault for $15,000 damages for alienating the affections of his wife. J. W. Leidigh, attorney.

Suit for Damages.

Katie Smith has commenced suit in the Common Pleas court against the Baltimore and Ohio Railroad company and the Columbus, Hocking Valley and Toledo Railroad company. Plaintiff says that on —— day of June, 1903, she delivered to defendants a box of goods valued at $150 to carry from Lancaster, Ohio, to Columbus, and from Columbus to Newark. Plaintiff says the goods were lost and were never delivered to her, to her damage in the sum of $150. Smythe & Smythe, attorneys for plaintiff.

Probate Criminal Court.

The January term of the Probate Criminal court, which was postponed from the first of the month, was held on Thursday morning, when the following cases were disposed of:

The cases of the State of Ohio vs. Carey Knauber, Mike Bishop and Kezso Parkas were dismissed for want of security for costs.

Case of the State of Ohio vs. A. O'Dell Garrison of Utica. Jury demanded and case continued until the first Monday in February.

The cases of the State of Ohio vs. John Pipa, William Moore, James P. Taylor, Charles W. Emswiler, Thos. Wharton, Samuel Bergen, Willaim Bergen, Charles Scheff, Frank Spring, Della Noe and Frank McBatton were continued to the first Monday in February.

In Common Pleas.

Albert G. Stickle vs. Newark Investment company, motion to give security for costs sustained. Ordered given in 30 days. Stilwell, Hunter & Hunter; Flory & Flory.

David L. Evans vs. C. N. G. Co., motion to petition sustained. Action to declare void a lease to drill for gas and oil. Jones & Jones, Norpell, Kibler & Montgomery.

The case of J. B. Jones vs. Eli Hull was resumed in the court and jury this morning. Plaintiff sues to recover for services as attorney. J. B. Jones; McDonald.

Willis Sentence Suspended.

The case of Baxter against Willis in the Mayor's court has taken a peculiar turn. Thursday afternoon the sentence of Willis, who was to spend 30 days in the county jail for assault, was suspended

Willis claims that his wife misrepresented things to him and caused him to assault Baxter.

In the case of J. B. Jones vs. Eli Hull, the jury this afternoon returned a verdict for the plaintiff for $300 and interest, this being the amount claimed by the plaintiff. This action was brought for attorney's fees.

Real Estate Transfers.

Frederic M. Black, assignee, to the Mechanics Building and Loan company, 50 acres in Granville township, $1,500.

John W. Camp and wife to The Central Ohio Railroad company as reorganized, and the Pittsburg, Cincinnati, Chicago and St. Louis Railway company, real estate in Harrison township $35.

The Newark Trust Co., as trustee for the Taylor Land and Improvement company to Wm. R. Sheppard, lot 12 in Cherry Vale Park addition to Newark, $145.

Frank P. Gourley and others to Charles C. Bone, inlot 383 in Utica, $150.

Wesley Montgomery to Alice Hannum, real estate in Newark, $1200.

Housewives, Listen!

[Berlin.—Emperor William regards good cooking as being necessary to the contentment of the people.]

Hasenpfeffer, metzelsoup,
Leberglaese und wein,
Sauerbratten, lagerbier,
Ach, my, dot is fein!
Eingemachte herring fish,
Blutwurst und pancakes—
Himmel, how all dese shweed dings
Beoples habby makes!

Sauerkraut, limburgerkase,
Und pig knuckles, too,
Kartoffel salad, apfelmus,
Makes cheerfulness in you.
Gansebratten, Kalbfleisch, shpeck,
Fat sausages, oh, yes,
Dese dings all make sad times skiddo
Und bring us habbiness!
—F. P. Pitzer in New York Press.

The Charming Woman

Is not necessarily one of perfect form and feature. Many a plain woman who could never serve as an artist's model, possesses those rare qualities that all the world admires: neatness, clear eyes, smooth skin and that sprightliness of step and action that accompany good health. A physically weak woman is never attractive, not even to herself. Electric Bitters restore weak women, give strong nerves, bright eyes, smooth, velvety skin, beautiful complexion. Guaranteed by Frank D. Hall, Druggist. 50c

DEATHS AND FUNERALS

OBITUARY.

John Kerrigan was born in County Tyrone, Ireland, June 22, 1843, and departed this life January 14, 1907, aged 63 years, 6 months and 22 days. On April 9, 1872 he was united in marriage to Mrs. Ellen Kennedy and of this union eight children were born, five of whom survive; also one grandchild. John and May of this city, William and Leo of St. Louisville and Mrs. Edward Dwiggins of Keyser, W. Va. He was a kind and loving husband and father and was loved and respected by a large circle of friends who mourn his untimely death. He was employed by the B. & O. railroad company for about 37 years, and was loved and respected by all railroad men who knew him.

A precious one from us is gone,
A voice we loved is stilled;
A place is vacant in our home
Which never can be filled.

CARD OF THANKS.

We desire through the columns of this paper to extend our heartfelt thanks to the many friends and neighbors both in Newark and St. Louisville, for their kind sympathy during our sad bereavement. Also are very grateful for the beautiful floral offerings. Mrs. John Kerrigan and children. d&sw

Self Sacrifice.

Mr. Bodger (heroically)—Here, you take the umbrella, Maria. Never mind about me!—Black and White.

Not So Very Final.

"I cannot be your wife," she replied and added, "This is final."

He paced swiftly to and fro several times, then halted abruptly in front of her.

"Pray, be candid with me," he said, not without the note of masculine impatience. "About how final?"

This was too much. She burst into tears.

"How do I know?" she sobbed.—Puck.

MISCELLANEOUS.

Found—On Fourth street, a child's muff with purse attached. Call at 96 Moull street, pay for this notice and recover. 17-3

Lost—Tan leather card case, containing two $10 bills and two tickets. Reward if returned to 53 Wallace street. 15d3t

Lost—Small fur between East Main street and Smith's boarding house. Finder return to 25 Allen st. 15d3t

Money to loan on long time, and at low rate of interest. Carl Norpell, Lansing block, Room 12. 11d6t

Buy or sell your real estate through The Talmadge Realty Co.'s "Exchange," 18 1-2 North Second street, Newark. 8-18dtf

Bargains in high grade National Cash Registers. Jackson and Hoffman, sales agents, Hallwood Cash Register Co., 358 N. High street, Columbus. Both phones. 28dtf

F. J. Mackenzie, Watch and Clock Repairing, 53 N. Third st. 6-7tf

FOR RENT.

For Rent—One 4-room flat in Avalon with bath, heat and all modern conveniences; also 5-room flat with bath over Scott Furniture store, East Main street, $12. Also 6-room house with bath on Elmwood avenue. Inquire C. W. Miller, attorney. 17d3t

For Rent—The most pleasant and convenient furnished rooms in the city at 85 Hudson avenue. For gentlemen only. 1-11dtf

'Twas New to Her.

Senator Dubois has a new cook. People keeping house in Washington always have new cooks. This particular Dubois cook came claiming that she could do anything, and Mrs. Dubois intimated on the first day that they would have some macaroni for dinner.

"What's that?" asked the cook.

Mrs. Dubois took her to the pantry and showed her the macaroni. "Do you mean to say you don't know what this is?" Mrs. Dubois asked.

"Oh, yes, 'deed I do, missus," the cook replied. "Only in the las' place I worked they lighted the gas with them things."—New York World.

General Picquart, French Minister of War, is a sort of Admiral Crichton, for, besides a wide general cultivation, he reads, writes and speaks Russian, German, English and Italian.

FOR SALE.

For Sale—Sleigh and sleigh bells; good as new; will sell cheap if sold at once. Inquire 250 Eddy street or phone Bell 461 W. 17-2t

For Sale—40 yards ingrain carpet, good as new; 1 gas range Call at 25 Hibbert & Schaus building between 6 and 7 p. m. Phone Red No. 702. 16d2t

For Sale—Sow and pigs. Pigs four weeks old. Inquire of Smith Bros., R. F. D. No. 4, Newark, O. 15d2t*

For Sale—One roll top desk in fine condition, and one safe. Inquire box office Auditorium. 15d2t

FOR SALE.

114-Acre farm, 8 room house, gas, 3 barns, well fenced and watered; gas well in sight. Will sell cheap and on easy terms. Possession at once.

Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. **Mother's Friend** is the only remedy which relieves women of the great pain and danger of maternity; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. $1.00 per bottle at drug stores. Book containing valuable information of interest to all women, will be sent to any address free upon application to ***BRADFIELD REGULATOR CO., Atlanta, Ga.***

Bancroft.

1771—Charles Brockden Brown, noted early American novelist, born in Philadelphia; died 1810. The ancestors of Charles Brockden Brown were Quakers, who came over among the followers of William Penn. At the age of 30 he was the author of six novels which gained immediate success. His stories are classed as the finest produced in America until Cooper came on the stage.

1800—Caleb Cushing, American statesman, born; died 1879.

1891—George Bancroft, historian, died at Washington; born 1800.

1906—Marshall Field of Chicago, the richest merchant in the world, died in New York city; born 1835. Commodore William P. McCann, U. S. N., retired, known as "The Father of the White Squadron," died at New Rochelle, N. Y.; born 1829. M. Fallieres elected president of France.

Steubenville's Awful Spasm.

An awful moral convulsion must have pervaded the sacred precincts of the city of Steubenville and the county of Jefferson when the grand jury groundout that indictment against young Mr. Fairbanks for procuring a marriage license to wed a Pittsburg heiress. Of course the young man, having eloped with the girl, was anxious to have the knot tied as soon as possible, and applied to the first Ohio town he entered to obtain the license. Under the circumstances the Steubenville officials should have felt honored by receiving an application from the son of the Vice President of the United States for a marriage license instead of making such a ridiculous spectacle of themselves before the whole country by their assumption of this spasm of virtue in the effort to prosecute the young man who may have outwitted them in his love affair and successful efforts to wed an heiress.

MR. JUCH WILL HAVE TO PAY BACK $150

It is understood upon reliable authority that the council will ask Mr. Juch to return the $150 to the city which he received for filling the unexpired term of Mr. Bolton as a member of the Board of Public Safety. After consulting with numerous legal advisors in this city it is learned that Mr. Juch is not entitled to the money. This is expected to be resisted by Mr. Juch, but the council, it is understood, is determined, and will use every means to get the money back. Mr. Juch has not been seen in reference to the proposed action.—American Tribune.

The Advocate suggested several days ago how this difficulty and injustice of one member of the Safety Board receiving $300 and the other only $150, could be adjusted. The remedy suggested was for the member receiving the $300 to repudiate the idea of being a party to any such injustice and refuse to receive any more salary than that paid to the other member. Mr. Juch himself cannot fail to see what a just and popular solution of the difficulty this would be, absolutely relieving the City Council of any trouble in the matter whatever. The fact that one member of Newark's Safety Board is receiving twice the salary of the other member, is not only an injustice, but it is an absurdity.

It is said that the Panama canal contractors propose to take 5,000 negroes from the Southern States to help as laborers. The claim is made that this class of labor is superior to that of West Indian negroes or Chinese coolies. If this is true and sufficient of this class can be induced to go to the isthmus a happy solution will be afforded of a serious question. For one thing, it will prevent the employment of Chinese coolies, against which there is strong sentiment in this country. Again, it will insure that the money saved by this class of laborers will eventually come back to the United States instead of being expended in the West Indies or China. Whether the negroes of our Southern States will be able to stand the climate of the isthmus as well as his West Indian brother remains to be seen.

Catarrlets Give instant relief in Nasal Catarrh—allay inflammation, soothe and heal mucous membrane, sweeten the breath. Best gargle for sore throat. 50c. Druggists or mail.

Dyspeplets Quickly relieve Sour Stomach, Heartburn, Nausea, all forms of Indigestion and Dyspepsia. Sugar-coated tablets 10c or 25c. C. I. Hood Co., Lowell, Mass.
If Made by Hood It's Good.

New Cure For Rupture

New Scientific Appliance, Always a Perfect Fit—Adjustable to Any Size Person—Easy, Comfortable, Never Slips, No Obnoxious Springs or Pads—Costs Less Than Many Common Trusses—Made for Men, Women or Children.

I Send It On Approval—You Wear It—If You Are Not Satisfied I Refund Your Money.

I have invented a rupture appliance that I can safely say, by 30 year's experience in the rupture business, is the only one that will absolutely hold the rupture and never slip and yet is cool, comfortable, conforms to every movement of the body without chafing or hurting and costs less than many ordinary trusses. I have put the price so low that any person, rich or poor, can buy, and I absolutely guarantee it. I make it to your order—send it to you—you wear it, and if it doesn't satisfy you send it back to me and I will refund your money. That is the fairest proposition ever made by a rupture specialist. The banks or any responsible citizen in Marshall will tell you that is the way I do business—always absolutely on the square.

Jas. Britton Cured of Rupture by C. E. Brooks.

Here is what Mr. Jas. Britton, a prominent manufacturer of Bethlehem, Pa., writes:

"C. E. Brooks, Esq. Dear Sir—I have been ruptured six years and have always had trouble with it till I got your appliance. It is very easy to wear, fits neat and snug, and is not in the way at any time, day or night. In fact at times I did not know I had it on. It just adapted itself to the shape of the body and clung to the spot no matter what position I was in. It would be a veritable God-send to the unfortunate who suffer from rupture, if all could procure the Brooks Rupture Appliance and wear it. They certainly would never regret it. My rupture is all healed up and nothing ever did it but your appliance. Jas. Britton."

If you have tried most everything else, come to me. Where others fail is where I have my greatest success. Write me today and I will send you my book on Rupture and its Cure, showing my appliance and giving you prices and names of people who have tried it and been cured. It is instant relief when all others fail. Remember I use no salves, no harness, no lies. Just a straight business deal at a reasonable price.

C. E. Brooks, 3246 Brooks Bldg., Marshall, Mich.

Cullom Returned.

Springfield, Ill., Jan. 17.—Senator Shelby M. Cullom was unanimously nominated for re-election to the United States senate at a joint caucus of the Republican members of the assembly, held in the house of representatives. Senator Cullom was not present, but sent to the Republican members a letter, thanking them for the honor to be conferred upon him.

COUGH NO MORE! will be your motto if you call at any drug store and obtain a bottle of Penn Cherry Elixir. Price 25c. tu-d

From 3,000 pear trees near Isleton, Cal., were shipped east 10,240 49-pound boxes of Bartlett pears, netting the grower $[illegible], or $[illegible] a box, an average of nearly $333 an acre at 100 trees to the acre.

In six Swiss colleges no fewer than 2,193 women are now studying. The majority of the enrolled female students are Russians.

In New York City last year 111,772 births are reported, an increase of 8,000 over 1905, and the greatest number in the city's history.

"THE IDIOT" ON M. O.

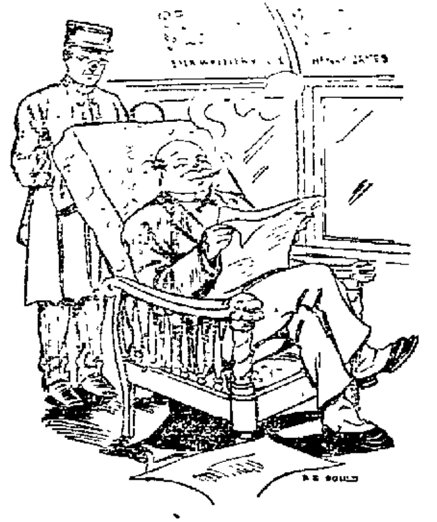
A Suppressed Chapter of "Coffee and Repartee" by J. K. Bangs.

Glorious Times Coming, When Each Passenger Will Be Paid For Riding on the Street Cars—Morris Chairs, Desks and Carnegie Libraries to Be Provided—The City to Pay the Bill.

"I see," said the idiot as he folded up the morning paper and sat on it so that his fellow boarders might not come into possession, "that the municipal marshmallow and peanut brittle plant at Hohokus has been sold to the candy trust, and the dream of comparatively free and absolutely pure marshmallows and peanut brittle under the control of the city fathers has turned out to be a mere bit of bankrupted iridescence."

"It's all iridescence—the whole municipal ownership scheme," said Mr. Brief, the lawyer. "It's a bubble without even the soap."

"Oh, I don't think that," said the idiot. "Seems to me it's a pretty good scheme, only they ought to make it comprehensive. What I want to see is the day when the municipality owns everything that now fills the individual with care, from the toothache and appendicitis up to the trolleys, theaters and theosophy. Did you ever think, Dr. Squills, of what a fine thing it would be to operate on the body politic for a case of municipal appendicitis?"



EACH PASSENGER WILL BE PROVIDED WITH A MORRIS CHAIR.

"I have never let my mind dwell upon so fertile a field for thought—no," said the doctor. "It would be rather difficult, wouldn't it?"

"I suppose it would," returned the idiot. "I suppose it would be next to impossible to etherize the whole city government before you began to grapple around in its insides after the offending vermiform, but if it could be done wouldn't it be fine? Just think of getting rid of all the useless and inflamed members of the body politic as easily as man now sheds his personally conducted trouble with his innards."

"Do you really believe that government could run the trolleys as well as they are run by individuals?" asked Mr. Brief.

"If they couldn't they'd better go out of business," said the idiot. "I don't see why they can't run street railways as well as they run the street manicuring department. And think how nice it would be—how much envy, hatred and malice would disappear—if the people owned the trolley! For instance, when you and I see Mr. J. Willieboy Duckington hiking up the pike in his automotrouble"—

"His what?" demanded the lawyer.

"His automotrouble," said the idiot. "It's a machine run by gasoline that breeds trouble of its own power. When we see old Willieboy scooting along in his car you and I turn pale pink with envy because we haven't anything of the kind to keep us awake nights and before the police courts of all the counties 'twixt Cattaraugus and Kennebunk. We're too poor to pay even for that long and tolerably consistent scent that lies in the trail of it, and we gnash our teeth to think that we never can get our pictures in the Sunday papers because we shall never own one of those machines. But if we as citizens of this metropolis owned the trolleys it would be different. When the Green avenue and Gompers square car goes by we would look at its brilliantly lit electric interior and smile with satisfaction. 'That is my new Wilmington,' we'd say to our country cousins who were visiting us. Then we'd nod politely to the chauffeur, and he'd stop and take us aboard, and by and by the conductor would come through and hand us all a nickel"—

"What in thunder are you talking about? What on earth would the conductor hand you a nickel for?" demanded the lawyer.

"For riding on the car, of course," said the idiot. "That's the scheme, isn't it?"

"Oh, is it?" laughed the lawyer. "Well, I guess that's the way some people look at it. What is your precise idea of municipal ownership, anyhow?"

"Why," said the idiot, "as I understand the propaganda of the M. O. people as expounded on the editorial pages of the sporting extras of the New York Evening Brisbane and the Chicago Daily William Randolph, municipal ownership means the grabbing of everything in sight that has a cash register and a meter attached to it, sending the original owners to jail for life and managing what's left for the benefit of the people. In the case of the trolleys all the enormous profits derived from the nefarious practice now in operation of carrying a passenger ninety miles for a nickel are to be turned back to hoi polloi in the shape of annual dividends with blue trading stamps with every dollar's worth, which on presentation at the office of any gas company in the United States will entitle the bearer to free gas for the rest of his natural life.

"The expected improvements in the public service will lie along the betterment of cars, an increased urbanity on the part of the motormen and conductors and a far greater regard for beauty in all rapid transit matters. As I understand the situation as to the first improvements, the cars are to be larger to begin with, better ventilated and without straps. No car will be so small that anybody will ever have to stand in or out of rush hours. Each passenger will be provided with a Morris chair on a swivel, with a writing desk and an electric light attached, stationery and typewriters to be had on application to the conductor. At one end of each car there will be a Carnegie library and a reading room, with all the magazines and weeklies on file, and at the other a buffet where soft drinks will be dispensed by the best mixers the politicians can drum up. In the advertising panels that run around the walls of the car, instead of these being merely friezes of patent medicines, face powders, breakfast foods and corsets, elevating literature will be printed by such authors as Dicky Davis, Ella Wheeler Wilcox and Henry James, with a college graduate on the rear platform to explain the paragraphs of the last named author to those who do not understand reformed rhetoric. Ladies will be escorted to their seats by bellboys, and every car will have a chaperon, aided by a competent bouncer to see that attractive looking shoppers, dainty little widows and others of the female persuasion are able to travel a block without being ogled off the car by vagrom drummers and lads from the smoke regions lately come into possession of their fathers' hard earned savings.

"All the motormen will be put through a course of instruction in good manners, so that when a lady on a street corner holds up her finger as a sign that she would like to get aboard, instead of cutting her dead, as many of them do at present, and going ahead as though the company didn't want any passengers, they will stop the car, lift their hats like a pack of Chesterfields, gather up her bundles, call her attention to the weather, express the hope that her family are all enjoying good health and see to it that she gets inside the car without falling on her face or sitting unexpectedly down in the lap of an entire stranger. The conductors will be similarly trained, only they will be rather better educated than the man on the front platform. I can think of no better way to show what the conductors will be than to say that they will resemble the modern policeman, that fine flower of the municipal ownership of the constabulary.

"You know what happens if you ask a policeman anything. He at once touches his helmet in respectful salutation, flicks the dust from the breast of his blue coat and places himself entirely at your service. Anything you want to know he tells you with a pleasant smile or with an expression of deep and poignant regret informs you that he is not at the moment in possession of the information you seek, but will find out at the earliest possible opportunity and send word by special delivery post if you will kindly give him your address. All of you who have had that experience with a policeman will know what to expect from the municipal ownership conductor. The city fathers as represented by their commissioner of trolleys will take the same care in the selection of the men that they now take through the police commissioner in the selection of the preservers of the peace, so that we may rest easy as to the superior morale of the force.

"Then, as for the roadbed, which is nowadays something of an eyesore in certain localities, the trolley commissioners will seek the co-operation of the commissioner of parks. Beautiful hedges of Japanese japonica will conceal the tracks from public gaze. At each street corner will be flower beds, in which the number of the street is set forth in growing plants. Trailing arbutus and Virginia creeper or wistaria vines will cover the trolley poles, and in time, when these have had a chance to grow, the whole trolley line will look like a beautiful floral and green arbor, and people living along the line, instead of looking out upon an ugly highway of steel and iron and wire, will gaze upon what appears to be a stretch of Eden running through their midst. Now, what could be better?"

MANNERS LIKE A CHESTERFIELD.

"It seems perfectly lovely," said Mrs. Pedagog, the idiot's landlady, enthusiastically.

"Who's going to pay for all this?" asked Mr. Brief. "You people don't seem to take the cost of these things into consideration."

"Who pays for the parks, the police, the fire department?" asked the idiot. "It will all come out of the pockets of the city, of course. All the city has to do is to establish a municipal printing establishment and publish a few bonds whenever the sinking fund gets below the water line. Say they need a hundred million to start with. That means only a hundred thousand bonds of a par value of $1,000. Or they might get 'em out in smaller denominations of $100 each, so that the people could buy them and thus put a lot of us in possession of a certificate of ownership. They'd look mighty pretty framed and hung on the wall. The best way to do, however, would be to send them over to England and sell 'em there, for it is an established fact that there is always somebody in England somewhere that will buy anything."

"That remains to be proved," said Mr. Brief.

"Well, all I have to say is that if you'll pay my expenses to London and back, guarantee me immunity from prosecution and provide me with the certificates I'll have Boston Common incorporated at $1,000,000 tomorrow and sell the whole issue at 43 before the first day of next April," said the idiot. "I'll make the late G. Whittaker Wright look like 30 cents."

"That may be, but they'd prosecute you just the same. They landed Wright and they landed Hooley for very much the same sort of thing. And after awhile they'd do the same with the city if it put its privately printed bonds for municipal ownership of the trolley on the market," persisted Mr. Brief. "Can't you see that?"

"Yes," said the idiot. "But that's the biggest point for the municipality in the whole business. You can't send a whole city to jail, you know."

JOHN KENDRICK BANGS.

LOSS $510,000 A WEEK.

Cost of Municipal Ownership to English Wage Earners.

During the years 1901-05 the rate of wages paid in Great Britain declined to such an extent that at the end of that period the workers were getting $510,000 less a week than in 1900. The total loss in wages for the five years compared with the wage scale of 1900 was more than $100,000,000. The parliamentary report from which these figures are taken records a reaction during the first half of last year, but the increase is but a bagatelle compared with the enormous loss recorded above.

As England is the country where government and municipal ownership is most general, these figures show that public ownership does not raise wages in general, but raises the wages of the few at the expense of the many.

This tremendous reduction in wages is due largely to increased taxation caused by the losses of the government and municipal industries, for higher taxes mean higher rents and a general increase in the cost of production, which must be offset in some way if England is to maintain her trade in the face of the world's competition. The easiest way to economize is to cut wages, and so the wage earner has had to pay for municipal experiments both in lower wages and higher rents.

When the wage earner is asked to vote for municipal ownership he should bear in mind that at the same time he would vote for all that goes with it—higher living expenses and lower wages, perhaps no wages at all. Who benefits? The politician who gets a new popular issue, the politician's close friends who are put on municipal jobs and the large consumer who gets his service for less than cost. Where does the wage earner come in? He pays the bills.

Philadelphia's Waterworks.

The Philadelphia Public Ledger predicts a general shakeup in the water department as the result of a recent inspection of the pumping stations. It states that evidence of neglect and inefficiency was found on every hand. This is not surprising in view of the fact that some of the "engineers" in charge of pumping stations were originally appointed as coal heavers and owe to political influence their promotion to their present responsible positions. The officials admit that the condition is serious, as much of the machinery is so worn as to be incapable of performing anything like its full duty. It is also admitted that much of the material received for repairs, etc., is defective and not in accordance with specifications. This condition has been known to members of the council for years.

Unfair Distribution of Cost.

A special dispatch from Kirkwood, Mo., to the Chicago Tribune states that the municipal electric light plant of that city has proved a failure. The generating plant will be shut down, and electricity will be purchased from a private company at one-third of what it has cost the city to make it. The city will sell to its customers at a price high enough to enable it to light the streets without cost to the taxpayers. This is typical of municipal ownership inequity—to force the users of electricity to pay for all the street lighting, although they are not benefited any more than the citizens who use gas or oil.

Failure of Municipal Bakeries.

The failure of the municipal bakeries at Catania, Italy, is reported by Mr. Churchill, the British consul at Palermo. There was a $30,000 deficit in the balance sheet, and the request governing a loan of $80,000 was refused by a royal commission. In consequence the institution has been closed.—United States Consular Reports.

IS ROOSEVELT MORE A DEMOCRAT THAN A REPUBLICAN?

Washington, Jan. 17.—Is Mr. Roosevelt more of a Democrat than a Republican? This interesting question is being answered in the affirmative by leaders of the minority party in the Senate. Yesterday Senator Carmack in supporting the President's policy with regard to the negro troops had occasion to invite the President to join the Democratic party. The whole tenor of the speech was to the effect that whenever the President shoulders the "big stick" and goes after the forces of plutocracy he finds the Democratic party with him Democrats lined up under the White House flag in the railroad rate battle, the beef inspection and pure food contests, and various other scraps over measures to control corporations. It is conspicuously so now in the Brownsville case.

Senator Foraker modified somewhat his original position and now he declares he is not attacking the President, but that his sole object is to give the discharged colored soldiers opportunity to put in their defense.

Fortifications Bill.

Washington, Jan. 17.—The house passed the fortifications appropriation bill. No amendment of any kind or nature was made changing any of the amounts carried in the budget. The measure carries $5,411,883, which is $357,890 more than was appropriated for the same purpose last session of Congress.

FREE HAIR REMEDY

Quickly Removes Dandruff, Stops Falling Hair and Itching Scalp, Changes Gray or Faded Hair and Grows New Hair.

TRY A FREE PACKAGE AT ONCE.

NOTHING QUITE SO NICE AS A BEAUTIFUL HEAD OF HAIR.

JUDGE BEN LINDSEY TO SPEAK AT AUDITORIUM NEXT MONTH

Newark's Probation Officer by Hard Work Raises Fund to Bring the Judge to Newark--Judge Lindsey An Excellent Speaker--Short Sketch of Court's Origin--Lecture will be Free.

Judge Ben Lindsey, the greatest advocate of the principles of the Juvenile Court the country has ever seen will deliver an address on this great question at the Auditorium Friday evening, February 15, under the auspices of the local Juvenile Court officers.

This address will be a big event, not only for Newark people, but for the surrounding counties as well.

relevant. He learned, however, that the boy, while a mighty bad youngster, had his silver spots, and the court ordered the sentence suspended and he started out to find the boy's good points. He found that this 14 year old lad was the only support of the mother. Through kindness and reasoning, the Judge completely reformed this boy, and this proved to his own mind at least that

JUDGE BEN LINDSEY, OF DENVER.

Judge Lindsey is the father of the Juvenile Court, and is the greatest advocate of the motto "Save the Boy" the country has ever seen. He will lecture in Newark Friday evening, February 15, at the Auditorium, under the auspices of the Newark Juvenile Court.

Notables have been invited from Columbus, Zanesville and Mt. Vernon, and those who are responsible for the Judge's appearance here have displayed their unselfish motives by extending these invitations to outsiders

It is through the efforts of Mary A. Swan, one of the Juvenile Court probation officers, that Judge Lindsey will appear in Newark. Mrs. Swan, who has made the "Boy Problem" a study for years, concocted the scheme by which it was made possible for the Judge to come to Newark. She formed her plans and carried them out without assistance or suggestions from any one.

It was a big undertaking and this was realized by no one more than by Mrs. Swan, but her love for the "kids" made these seemingly insurmountable obstacles dwindle to almost nothing and she undertook the task.

She visited some of the city's most influential business men and explained the situation and asked for assistance. After several weeks of hard work she commenced to realize her ambitions and the success of the venture was assured. Then it was announced that Judge Lindsey would speak at the Auditorium.

Mrs. Swan had no help in her work of gathering the funds and considerable credit is due her for carrying out the plans of a venture which indeed is quite large. The worthiness of her cause is sufficient approval for Mrs. Swan's undertaking. Those who contributed were:

MRS. SWAN'S CARD.

I desire through the columns of the Advocate to extend my sincere thanks to those who have so materially aided in the efforts of the Juvenile court of Newark to secure Judge Ben Lindsey of Denver for an address on "The Boy Problem," to be delivered at the Auditorium Friday, February 15.

Through the generosity of those who contributed to the fund, the fathers and mothers of Newark will be given an opportunity to hear the country's greatest advocate of "Saving the Boy" instead of punishing criminals.

By no one who was asked to contribute, was I gruffly turned aside. All seemed glad to help the cause along and I desire in this way to extend to them my heartfelt thanks for their liberality in contributing and for their interest in the success and welfare of the court and the principle for which it stands.

I trust that the address of Judge Lindsey will accomplish such a vast amount of good, that those who aided in getting him here will feel well repaid for what they contributed.

MRS. M. A. SWAN,
Probation Officer, Juvenile Court,
Newark, Ohio.

Judge Ben Lindsey, the speaker, is probably the most noted advocate of the motto "Save the Boys" that the country has ever known. For years he has been judge of theh Juvenile Court at Denver, and in that position has had innumerable opportunities to study his hobby. His career in this work is an interesting one and the Judge has been in the public eye for months, several of the big magazines sending their best feature writers to Denver to tell the world of this great man's work and the methods he employs.

Some 15 years ago, while Judge Lindsey was sitting as judge of the Probate Court in Denver, a young boy was brought before him charged with incorrigibility. The court heard the evidence and sentenced the lad to the Industrial Home at Golden, Col.

Upon hearing the sentence, the boy's mother threw up her hands, and a wail of despair escaped her lips and she fell to the floor of the court room in a faint. After the excitement caused by the scene had been quieted, the judge made some inquiries into the case which might have been termed by the lawyers irboys are not all bad.

Then commenced his fight for the boys. He saw the need of a court whose sole duty was to handle the cases of the boys and make a study of the boy question. He succeeded after a hard fight in getting his Juvenile Court law passed by the legislature and then Judge Lindsey was the first judge of the Denver Juvenile Court.

A few of the cases of that court in the past few years which have been written up in detail by several of the best magazine feature writers makes one of the prettiest and most touching stories ever penned for a magazine.

McClure's Magazine and late issues of the Ladies' Home Journal contain articles of this sort, and in this way the fame of Judge Lindsey's court has spread all over the country and even to foreign lands.

So great is the system employed, representatives of half the state of the Union and European countries have gone to Denver at various times to study the conditions and the system by which the court is operated.

The lack of space prevents the details of this court being given. Suffice it to say that Judge Lindsey's court has been approved by nearly every public man who ever took the trouble to inquire into it. President Roosevelt is loud in his praise for the work of this man. Judge Lindsey himself spends his time and money advancing the principles he believes in, and the lecture which he delivers in Newark does not benefit him financially, as he turns the proceeds into a fund which is spent on the boys.

Mrs. Swan, by whose efforts the Judge comes to Newark, has extended an invitation to every father and mother in Newark. She his invited every labor union and secret society in Newark to attend the lecture. The ministers of the city have been asked to announce the lecture and extend an invitation to their congregations to hear Judge Lindsey tell them how to save the boys and girls of Newark.

Mrs. Swan realizes that the opportunities to hear Judge Lindsey are few and far between, so she has sent written invitations to the editors of every Columbus and Zanesville paper, the mayors of Columbus and Zanesville, Judge Black of the Juvenile Court in Columbus, Supt. J. A. Shawan of the Columbus schools, President W. O. Thompson of O. S. U., Rev. Fr. Joseph Wehrle of Bellaire, and Rev. Fr. L. W. Mulhane of Mt. Vernon. Senator Atwell of Johnstown, has also been invited.

LICKING COUNTY MEN HONORED

At Meetings of Ohio State Associations of Sheep and Cattle Breeders at Columbus.

The 25th annual meeting of the Ohio Merino Sheep Breeders' Association, held at the Northern hotel Columbus, was well attended and a very enthusiastic one. The election of officers for the ensuing year resulted as follows:

For president, George B. Quinn, Roxubury, Morgan county; vice president, Paul P. Gurney, Alexandria, Licking county, second vice president Charles E. Harter, Delaware; secretary and treasurer, Wesley Bishop, Delaware.

Committee on Pedigrees—R. D. McGonagle, Ashley, Delaware county; George F. Masters, Edison, Morrow county; George S. Thomas, Greenwich, Huron county.

Executive Board —Mart McGonigle, Ashley, Delaware county; Perry Peck, Pataskala, Licking county; M. H. Rhoads, Marrall, Marion county; Charles Deeds, Granville, Licking county.

Jersey Cattle Club.

The 25th annual meeting of the Ohio Jersey Cattle Club was held at the Chittenden hotel, Columbus, on Tuesday night. Seventy-five breeders from Ohio were present.

Dr. Way of the Hartman stock farm, talked on tuberculosis. The milking machine was talked on by D. H. Olds of Springfield; C. H. Sears, of Chillicothe, Bert Smith of Delaware, and Professors Plumb and Decker of O. S. U. All have used the machine in their herds and say it has come to stay. H. D. Van Pelt of Ames college, Iowa, talked on feednig dairy cattle on yearly test.

The officers elected were: C. H. Sears, president, Chillicothe; D. H. Van Pelt, vice president, Columbus; Tom Dempsey, secretary, Westerville; Jud Keller, treasurer, Newark; directors, Jacob Du Bois, Vigo, and J. E. White, Greenfield.

An elegant line of men's, boys' and children's suits at EMERSON'S, Cor. Third and Main, and all reduced in price during the Clearance Sale.

New York City annually pays $50 in gold in one payment to every blind person who has been a resident of the metropolis for a year, and who has not been an occupant of a city institution during that time.

TWO WEEKS OF RACING AT COLUMBUS

IS PRACTICALLY ASSURED BY THE APPORTIONMENT OF GRAND CIRCUIT DATES.

E. W. Swisher, of Columbus, Brother of John and Harry Swisher, Grand Circuit Steward.

Columbus, Jan. 17—Columbus is practically assured of a two weeks' horse meeting without opposition. That a meeting will be held was decided before Messrs. Swisher and Shepard left for the stewards' meeting, but there was some doubt as to the meeting having a clear field the second week owing to other tracks trying to get that date. The stewards yesterday awarded the week following the Columbus date to Cincinnati as usual, which means that Columbus will have the horses here. Oakley park at Cincinnati is being cut into building lots and there is no chance for a meeting there.

Following are the Grand Circuit dates:

Detroit, July 22, 26.
Cleveland, July 29, August 3.
Buffalo, August 5, 10.
Poughkeepsie, August 12, 24.
Providence, August 26, 31.
Hartford, Conn., September 2, 7.
Syracuse, September 9, 14.
Columbus, September 16, 21.
Cincinnati, September 23, 28.
Memphis, October 14, 19.

At an informal meeting held in the morning it was decided to reorganize the circuit by cutting down the initiation fee or forfeit from $1000 to $500. Under the higher fee only six tracks, Detroit, Cleveland, New York, Boston, Providence and Memphis, had actually become members of the organization. All the other tracks in the circuit were mere associate members, having no representation on the board of stewards.

When the formal meeting was called to order D. J. Campau, president of the circuit ever since it was incorporated, prepared the organization program and then declined re-election. J. M. Johnson of Calais, Me., who is the president of the New England Trotting Breeders' Association, was chosen to succeed him. The other officers elected were: H. M. Hanna, of Cleveland, vice president, and Albert H. Moone, of Providence, secretary and treasurers. One steward was chosen for each circuit track, E. W Swisher, being elected for the Columbus track.

Miners After State Official.

Indianapolis, Ind, Jan. 17.—A resolution was presented to the United Mine Workers' convention by members of Indiana district, No. 11, reflecting on the record of James Epperson as state mine inspector, and expressing grave doubt of his ability to administer the affairs of the office. The resolution was apropos of the recent mine disaster at Clinton, Ind., in which eight men lost their lives. The resolution was referred to the committee on resolutions.

AGED FATHER OF MRS. JOS. RENZ

Fell Wednesday Night and Broke His Thigh Bone—Another Broken Bone Reported.

Wesley McCamey, aged 64, the father of Mrs. Joseph Renz, who makes his home with his daughter in West Church street, suffered a fracture of the thigh bone last night at the Renz home. Mr. McCamey arose shortly after 12 o'clock and being a sufferer from paralysis, he fell. The thigh bone was broken. Drs. Cosner and D. M. Smith were called to attend Mr. McCamey and the fracture was reduced. Owing to the fact that the limb is paralyzed, there is some doubt about the bone knitting properly. The aged man's condition is considered serious.

Another Broken Leg.

A Hungarian employed at the Everett factory, slipped on the ice and fell Wednesday night and suffered a fracture of the leg above the ankle. Dr. Arthur Liston and Dr. D. M. Smith reduced the fracture.

TO STOP POACHING AT BUCKEYE LAKE

A Subscription Has Been Started by Buckeye Lake Club to Raise Funds for Purpose.

Columbus, O., Jan. 17—The members of the Buckeye Lake Yacht club have taken a great deal of interest in the work of putting a stop to fish poaching on the reservoir and at the meeting of the club subscription list was started to collect funds enough to enable the state fish and game commission to employ extra help in this work. Fred J Immel, president of the board of public service, and a most ardent Buckeye Lake enthusiast headed the list with his subscription.

"There won't be any fish left in the lake," he said Wednesday, "if these 'snake hunters' are not stopped. Fully 40 of them are reported to have been seen at work with their nets Sunday night. One trouble has been that the farmers and justices of the peace in that vicinity are afraid of these fellows, who threaten all kinds of retaliation if not let alone, burning barns and all that sort of thing. We propose to take a hand now and help the state commission out."

Science in Selecting Proper Foods

People Are Unhealthy Because They Do Not Eat The Right Food.

In these days of adulterated foods and food products such a food as is known to be pure and wholesome is indeed welcome. We have heard of many breakfast foods and cereal products—some broadly advertised as whole products, others as cure-alls for every disease known to man. No doubt they are all good and possessed of some merit, but most of them are manufactured with some foreign sweetening agent to make them palatable. Among all the breakfast and cereal foods offered the public to-day, we believe we are warranted in saying that Malta-Vita is the only food that is simply and wholly pure grain product and nothing else, except a little salt. Malta-Vita as it comes to you from the factory is all of the wheat. It has been thoroughly cleaned, steamed to gelatinize the starch, then added to it is barley malt extract made from selected barley—this, acting upon the starch, turns it into maltose or malt sugar, pronounced by physicians and food experts the finest, purest, most healthful sweetening agent known. Then the grain of wheat is rolled out flat into a thin wafer flake and baked in the ovens. It comes to you fresh and pure and sweet—absolutely nothing but a grain product prepared in the cleanest and most wholesome way and [illegible] into the most delicious whole [illegible] food that can be found. Malta-Vita is sold by all grocers. Now 10 cents.

IRON AND TRADE REVIEW.

Cleveland, O, Jan 17—The Iron and Trade Review today says:

One of the most interesting features in the whole iron and steel business during the week came out when the steel car interests began to make inquiries for plates extending into 1908, and it is announced that inquiries in the neighborhood of 40,000 cars are now in the market, showing that the railroad companies have confidence in the future for practically a year and a half at least, as deliveries on this number of cars could not be made before July 1, 1908, when the work now on hand in this line is taken into consideration.

The demand for sheets continues strong. The principal producer is now behind on deliveries from 14 to 16 weeks. Inability to secure an adequate supply of sheet bars has prevented mills from running to their full capacity. The tremendous demand for plates continues, and mills are overwhelmed with specifications, while mills are having difficulty [illegible] supplies of semi-finished materials.

Owing to the mild weather and offerings of the railroads, old material prices are sagging in nearly all centers. Coke conditions are also somewhat easier, as much better delivery is being given by the railroads.

A decided improvement in the demand for structural material is noted especially in the Chicago district, where the Illinois Steel Co. has received specifications for about 60,000 tons, of which 50,000 tons came from a western car builder and included both plates and shapes. Numerous orders for bridge material aggregating a considerable tonnage have been placed and many inquiries for steel for new buildings in New York, Chicago and other cities are pending.

MAY ENLARGE O-P LEAGUE TO 10 CLUBS

T. V. Rutledge of Newark, Named as One of the Members of Schedule Committee.

Cleveland, O., Jan. 17—The attempt being made by the Erie club to break into the O. P. league may result in the league being enlarged from eight to ten and possibly twelve clubs. This action was discussed by the magnates at the last session of the annual meeting Wednesday at the Hollenden hotel. The feasibility of this plan will be investigated by President Morton and he will report at a meeting of club owners to be held in Cleveland later in the month.

The attempt to enlarge thhe league was voted down at Tuesday's meeting, but the subject was taken up again Wedensday and the prospects seem bright for success. As a result of the recent developments Charles Mischler of Sandusky, and Robert Biehl are making an active campaign to have Sandusky at least included in the league.

Should the project be carried out Erie, Sandusky, Zanesville and Lima would be added to the list of clubs. At the meeting Wednesday President Morton was appointed a committee of one to visit the towns named and size up the situation. It is believed that the Erie club can obtain enough votes in the Interstate league to obtain its release from the same.

President Morton went to Erie on Wednesday. He will be joined by Marty Hogan and the plan to include Erie in the league will be fixed up, it is believed. Morton will visit Sandusky Wednesday and then will go to Lima and Zanesville. He will then return to Erie to get a final report on the situation there. Then he will call a meeting of club owners to be held in Cleveland on January 29. The whole question will be decided then.

At the meeting Wednesday Morton was voted a salary of $1500 a year. The schedule committee was increased from three to five members, as follows: W. E. Gray, Lancaster; T. V. Rutledge, Newark; A. C. Cook, Youngstown; A. C. Hyde, New Castle; W. A. Palmer, Akron.

DENISON VS. MEDICS.

The Denison basket ball team will play the Ohio Medic five at Columbus at Bliss Hall Saturday.

NEWARK HIGH DEFEATED.

Newark was defeated by the Canal Dover High school team at the "Y" gym last night by the score of 21 to 19. The game was exciting from the start, the teams being equally matched.

Long Live the King.

Is the popular cry throughout European countries; while in America the cry of the present day is "Long live Dr. King's New Discovery, King of Throat and Lung Remedies!" of which Mrs. Julia Ryder Paine, Truro, Mass., says: "It never fails to give immediate relief and to quickly cure a cough or cold." Mrs. Paine's opinion is shared by a majority of the inhibitants of this country. New Discovery cures weak lungs and sore throats after all other remedies have failed: and for coughs and colds it's the only sure cure. Guaranteed by F. D. Rall, Druggist. 50c and $1.00. Trial bottle free.

NOTICE.

The following scale of wages has been adopted by Local Union 136 of Carpenters of Newark, beginning April 1, 1907, and ending March 31, 1908.

The minimum scale shall be thirty-seven and one-half cents (37 1-2c) per hour and eight (8) hours shall constitute a day's work.

For hand dressing all hard wood floors it shall be fifty (50) cents per hour and eight (8) hours per day.

The apprentice scale shall be fifteen (15) cents per hour for the first year; twenty (20) cents per hour for the second year; thirty (30) cents per hour for the fourth year, and an eight (8) hour day. Time and half time for overtime and double time for Sundays and legal holidays. Adopted by Local Union 136 of Carpenters of Newark.

BREVITIES

THE HALL OF FAME.

Mayor E. Clay Timanus of Baltimore has officially announced that he will be a candidate for re-election next spring.

General Funston used to collect botanical specimens for the department of agriculture. He is an expert on the grasses of the northwest.

General Brugere, former minister of war of France, is expected to visit this country in the near future to make an inspection of American posts and study the organization and the methods of training the American sailor.

A. W. Converse of Windsor Locks, Vt., who has been postmaster there since 1868, except during the Cleveland term, is an enthusiastic collector and at one time owned 300 of the 600 Washington engravings as well as sixty-five "lives" of the Father of His Country.

A close friend of Senator Lodge is responsible for the statement that the Massachusetts statesman for years has received an income from his literary efforts far in excess of his salary as senator. He has written on more phases of American history than any other man in public life. His latest work is a book of essays.

Professor Edward S. Morse, the well known astronomer and author of "Mars and Its Mystery," is an authority on Japanese art as well as Martian canals as seen through Lowell's great telescope. He has been a professor in the Imperial university at Tokyo and is at present in charge of Japanese pottery at the Boston museum.

Henry Mitchell of Boston has been for forty years maker of the dies for the stamped envelopes issued by the government, with a brief intermission. At one time a change of administration resulted in his being relieved. But he was not out long—only a few months—for it was soon discovered that nobody but Mitchell could properly make the dies needed by the government.

Sir Hiram Maxim, the famous inventor of guns and powder, does not nowadays look much the Maine Yankee he is. He impresses the beholder as being rather a fierce personage, white whiskered and his breast covered with decorations when special occasion calls for such display. For the last ten years and more Sir Hiram has devoted himself to attempts to solve the problem of aerial navigation.

ENGLISH ETCHINGS.

More than 450,000,000 picture postal cards were consigned to the mail in England during the past year.

Clogs are still much used in England, at least 4,000,000 pairs being sold in the northern counties every year.

The number of female money lenders in London is said to be rapidly increasing. They are all old women and are more grasping and merciless than men.

Dr. Horton, an English clergyman, would like to see Monday identified with Alfred the Great, Tuesday with Sir Philip Sidney, Wednesday with Nelson, Thursday with Sir Herbert Edwardes, the great Indian statesman; Friday with David Livingstone and Saturday with James Chalmers.

At the English royal castle of Sandringham it is customary to weigh every guest on his arrival as well as on his departure. The weight is carefully entered in a book, and the person weighed must sign his name. As the custom has been observed there for more than forty years, the book of signatures has obtained considerable dimensions.

EDITORIAL FLINGS.

A New York man imagines he is a monkey, and quite a number of New York monkeys imagine they are men.—Florida Times-Union.

What to do with our ex-presidents is a puzzling problem, but what are we going to do with our ex-countesses?—Charleston News and Courier.

A pew in a New York church recently sold for $3,500. The next thing will be the listing of church pews on the New York Stock Exchange.—Atlanta Journal.

Santos-Dumont says the aeroplane before long will be the poor man's automobile. But it is obvious that the rich will still be able to fly higher.—Saginaw Courier-Herald.

If wealth does not bring respect, how does it happen that John D. Rockefeller, Jr.'s Bible class orations are the only ones printed in the New York papers, and they are printed regularly?—Philadelphia Record.

SHORT STORIES.

A new brick house is, as a rule, far damper than a new stone building.

The Review of Reviews says Butte, Mont., is a flowerless, grassless, godless town.

All steerage passengers arriving in New York are not immigrants. There is a daily average of 275 citizens who return home that way.

Marines who hereafter qualify as expert riflemen will have an increase of pay of $3 per month, sharpshooters will get $2 and marksmen $1.

Dr. F. E. Daniel of Austin, Tex., at the recent tuberculosis congress in New York said that some churches were among the liveliest of disease breeders.

One Argentine ranch which Secretary Root's party visited during his tour in South America has 15,000 fine Durham cattle, 20,000 sheep and 3,000 brood mares. It contains over 26,000 acres.

TRY THIS FOR BACKACHE.

Get from any prescription pharmacy the following:

Fluid Extract Dandelion, one-three ounces.

Compound Kargon one ounce.

Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered by eminent authority as the finest prescription ever written to relieve Back ache, Kidney Trouble and Weak Bladder. This combined mixture should act on the eliminative tissues of the Kidneys to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Being composed entirely of vegetable ingredients, it is harmless and inexpensive.

Mix some and give it a trial. It certainly comes highly recommended. It is the prescription of an eminent specialist, whose entire reputation, it is said, was established by it.

ELOPEMENT ENDS HAPPILY FOR ALL

RALPH SKEEN, YOUNG BARBER FORMERLY OF NEWARK WAS MARRIED

In Covington to Miss Zella Van Huffelle, a Pretty Belgian Girl—Live in Mt. Vernon.

Mt. Vernon, Jan. 17—"Mr. Ralph Skeen, aged 33 years, and Miss Zella Van Huffele, aged 22 years, of Mt. Vernon, O. married in Covington, Kentucky."

Such was the item appearing in the Cincinnati Enquirer on Tuesday, but back of all this there is an interesting story.

For some time past Miss Van Huffele, now Mrs. Skeen, who is a pretty little Belgian girl, has been desperately in love with Mr. Skeen, a well known barber, and his infatuation for her was no less ardent.

On several occasions she has left her home on East Front street and has gone to the home of her lover in the east end of the city. The bride's parents strenuously objected to this and on two different occasions Chief of Police Dermody was sent to the Skeen residence and took the young woman back to her parents.

On Monday Mr. Skeen left the city and on the same day Miss Van Huffelle was missing from home. On Tuesday the parents of the bride learned that the young lady was at the home of Mr. Skeen and requested the police to get the girl and bring her home. Officers McElroy and Butcher went to the Skeen home and upon rapping at the door they were met by Mrs. Skeen, mother of the young man.

"We have come for Miss Van Huffelle," said Officer Butcher.

"Well, you can't have her," replied Mrs. Skeen.

"Why?" asked the officer.

"Because she is married to my son."

"We must see the documents," said the officer.

Whereupon Mrs. Skeen called Ralph and he came to the door with a long document carefully wrapped up in tissue paper.

"Here is the license," said Mr. Skeen, handing the parchment to Officer Butcher. The document was examined by the two officer and it was found to be the license issued to Mr. Skeen and Miss Van Huffele at Covington, Ky., on Monday, January 14th.

"She's yours," said Officer Butcher "and you have our congratulations. Our part of the case is over.

Whereupon the officers left the house, the door closed and this part of the story came to a close—but Papa and Mamma Van Huffele were exceedingly angry when informed by the officers that their daughter had eloped to a strange city and had then been united in the holy bonds of matrimony.

However, the parents soon recovered from the shock and were willing to forgive their daughter this time. So the story is brought to a close, as all good stories should be, with a happy reunion between the parents and the bride and groom.

HUMOR

BOBBY ON THE HUMAN BODY

A Juvenile Essay Containing Some Hitherto Unpublished Information.

The human body was first supposed to be made up of 208 bones, but later discoveries have developed the fact that it contains 208 bones and an appendix. An appendix is something which is added on, like a postscript on a woman's letter, and means about as much. Its principal use is to afford a revenue for doctors and surgery specialists. Operations on the human system are the correct thing in polite society. Pa says there is one woman in our town who has nothing left in her but her palate and her tongue, she has been operated on so much. Last Sunday our Sunday school text was, "Praise the Lord, oh my soul, and all that is within me." I said to pa, "Mrs. So-and-so wouldn't be very strong on that, would she?" And he laughed and said no.

A railroad brakeman is in a class by himself. He doesn't have anywheres near 208 bones in his body. I know a brakeman, chairman of a grievance committee of ten, and when he goes to count the members of the committee on his fingers he can never get a quorum because he hasn't enough fingers left.

It says in my physiology that in the human frame is a network of nerves, a sort of system of fine wires which carry messages to and from the brain. For instance, if you put your finger on a hot stove the nerves of the arm carry a message to your brain that your finger is getting burned, and your brain flashes back instructions to take your finger off the stove. The other night I had my fingers in a can of jam in the pantry when by eardrum sent a message to my brain that ma was coming. My brain answered back to take my fingers out, but the message was delayed in transmission, and I didn't move quick enough. Ma caught me. For a few minutes the wires running up my spine to my brain were crowded with good government messages as to what was going on on the firing line. Now when I go to sit down my brain advises my arms to put a pillow on the chair.—Bobby in Judge.

On the Job.

When the thermometer dropped below zero Mrs. Rodgers was much disturbed by the thought that Huldah, the new kitchen maid, slept in an unheated room.

"Huldah," she said, remembering the good old custom of her girlhood, "it's going to be pretty cold tonight. I think you had better take a flatiron to bed with you."

"Yes, ma'am," assented Huldah without enthusiasm.

Mrs. Rogers, happy in the belief that her maid was comfortable, slept soundly. In the morning she visited the kitchen.

"Well, Huldah, how did you get along with the flatiron?"

Huldah breathed a deep sigh of recollection.

"Vell, ma'am, I got it most warm before morning."—Everybody's.

Wise Youth.

"Yes," sighed the unfavored suitor, "Evangeline's father told me never to call there again. I tell you I am feeling pretty blue."

"Well," said his chum, "before I would feel that way I should call in spite of the old gentleman."

"Oh, no. I would rather feel blue than to run the chance of feeling black and blue."—Chicago News.

Simply Manipulated.

"He has invented a skidless auto wheel."

"That ought to bring him a fortune."

"Yes."

"How does the thing work?"

"It's very simple. All you have to do to prevent the wheels from skidding is to keep the auto in the garage when the pavements are wet."—Cleveland Plain Dealer.

A Winner.

Patience—She is what you would call an athletic girl.

Patrice—Indeed!

"See that ring she wears? She won that by jumping."

"You don't say?"

"Yes. She jumped at a marriage proposal.—Yonkers Statesman.

The Terrible Infant.

The Child (after silent inspection)—Well, I don't understand why ma says it's easy to see through you, Mrs. Jenks. You're so thick.—Brooklyn Life.

Thinking of Shop.

"I'll be as steadfast as steel," murmured the beautiful girl.

"Common or preferred?" inquired the young broker absently.—Washington Herald.

There Are Others.

"Clerker seems to be actually jealous of his chauffeur."

"No wonder. He has to pay the man more than he earns himself."—Puck.

A Mild Laxative

Ask your doctor to name some of the results of constipation. His long list will begin with sick-headache, biliousness, dyspepsia, thin blood, bad skin. Then ask him if he would recommend your using Ayer's Pills for constipation. Just one pill at bedtime, a few times, that's all.

We have no secrets! We publish the formulas of all our preparations.

ABOUT PEOPLE

Short Personal Items Gathered During the Day.

Mr. L. E. Marceau is making a business trip to Cleveland and Chicago.

E. B. Wilson has been visiting in Coshocton, the guest of his brother, W. B. Wilson.

Mr. Ben Hoover of the Advocate staff has gone to Richmond, Ind., to visit friends for a few days.

Mrs. Charles Clark of Coshocton was called here the first of the week by the illness of her mother, Mrs. John Darnes.

Mr. A. L. Havens of Chicago was the guest of his parents, Mr. and Mrs. George Havens, last evening. He returned to Chicago today, accompanied by his mother, who will visit with him in Chicago for several days.

MRS. MILLER MAKES A FORTUNE

Started a Few Years Ago With No Capital and Now Employes Nearly One Hundred Clerks and Stenographers.

Until a few years ago Mrs. Cora B. Miller lived in a manner similar to that of thousands of other very poor women of the average small town and village. She now resides in her own palatial brown-stone residence, and is considered one of the most successful business women in the United States.

Several years ago Mrs. Miller learned of a mild and simple preparation that cured herself and several friends of female weakness and piles. She was besieged by so many women needing treatment that she decided to furnish it to those who might call for it. She started with only a few dollars' capital, and the remedy, possessing true and wonderful merit, producing many cures when doctors and other remedies failed, the demand grew so rapidly she was several times compelled to seek larger quarters. She now occupies one of the city's largest office buildings, which she owns, and almost one hundred clerks and stenographers are required to assist in this great business.

MILLION WOMEN USE IT.

More than a million women have used Mrs. Miller's remedy and no matter where you live, she can refer you to ladies in your own locality who can and will tell any sufferer that this marvelous remedy really cures women. Despite the fact that Mrs. Miller's business is very extensive, she is always willing to give aid and advice to every suffering woman who writes to her. She is a generous, good woman and has decided to give away to women who have never used her medicine $10,000.00 worth absolutely FREE.

Every woman suffering with pains in the head, back and bowels, bearing-down feelings, nervousness, creeping sensations up the spine, melancholy, desire to cry, hot flashes, weariness, or piles from any cause, should sit right down and send her name and address to Mrs. Cora B. Miller, Box 348, Kokomo, Ind., and receive by mail (free of charge in plain wrapper) a 50-cent box of her marvelous medicine; also her valuable book, which every woman should have.

Remember this offer will not last long, for thousands and thousands of women who are suffering will take advantage of this generous means of getting cured. So if you are ailing, do not suffer another day, but send your name and address to Mrs. Miller for the book and medicine before the $10,000.00 worth is gone.

The Michigan Supreme court has decided that the evidence submitted by phonograph is admissible.

In the northern hemisphere there are 6,100 stars plainly visible to the naked eye; in the southern, 7,200 stars.

BOWLING

Last night on Music Hall alleys the Echo club forfeited a series of three games to the Consumers. Following is the score:

Consumers—				Tot.
Swartz	151	180	140	471
Fenneker	159	140	115	414
Lenhard	121	159	157	437
Verheyen	157	131	170	458
Koch, c	165	131	117	413
	753	741	699	2193

Tonight promises to be a fast game between the Flickers and Gimlets. Both teams are strong and confident of winning.

On the Music Hall alleys last night the Outlaws took two out of three games from the Peerless club. In the quintet league the scores were close but the bowling was poor. Applications are open for three or four more substitutes on the Peerless club. The score:

Peerless—				Tot.
Jones	44	48	44	136
J. Bausch	45	52	47	144
Stchow	38	49	48	135
Baker	46	39	44	129
	216	225	222	653

Outlaws—				Tot.
Deibl	49	43	53	145
Graef, c	36	35	44	115
Mussel	42	34	40	116
G. Baker	50	46	49	143
Dreist	40	40	40	120
	217	198	226	641

Tonight, Centurys vs. Idlehours on the Music Hall alleys.

A Wonderful Happening.

Port Byron, N. Y., has witnessed one of the most remarkable cases of healing ever recorded. Amos F. King, of that place says: "Bucklen's Arnica Salve cured a sore on my leg with which I had suffered over 80 years. I am now eighty-five." Guaranteed to cure all sores, by F. D. Hall, druggist, 25c.

GRANVILLE TOWNSHIP

Mr. James Wheeler visited Mr. Howell Richards and family Saturday and Sunday, and called on Mr. W. H. Morgan Sunday afternoon.

Mr. and Mrs. Frank Hartsough and son Harold visited Mr. Stiles Tharp, Sunday.

Mrs. Ackley and Mrs. Schoonover and son Oscar visited Mr. Harry Strickler and family Monday.

Mr. Robert Billman visited Mr. W. H. Morgan Monday.

The literary society will meet Friday evening in the Welsh Hills school house.

Mr. Guy Wright visited his parents Tuesday.

Mr. Carl Luther spent Tuesday evening with William Morgan.

Mr. Burr Luther has completed the cellar under his house.

Mr. Dunaway is slowly improving.

Mr. G. A. Morgan of Columbus is visiting his parents, Mr. and Mrs. W. H. Morgan, for a few days.

Mr. Andrew Billman, who was hurt on W. H. Morgan's saw mill, will soon be able to go to work.

Mr. Harry Stricklar has been selling meat in Granville.

RHEUMATIC FOLKS!

Are You Sure Your Kidneys Are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is a Newark testimony to prove it.

Charles Rose, of 549 West Main street, Newark, Ohio, says: "Rheumatism attacked me in the back and loins and I felt touches of it all over my body. I do not think there was a joint that did not pain. My work requires me to stand in water almost constantly, and I think wet feet was the first cause of my trouble. After suffering for months and months without being able to get anything to help me, I heard of Doan's Kidney Pills and got a box at Crayton's drug store. The day I began using them I was aching all over. My case was so severe that I used three pills three times a day, and in 48 hours from the time I took the first dose the pain had almost entirely disappeared. I continued the treatment for some little time, and have had no return of my trouble since. I have been working in the wet for the past twelve months without suffering at all from my kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other. 31

The Advocate Book Bindery will supply you with blank books for 1907. tf

PRESIDENT

Addresses the Delegates to Foreign Commerce Convention.

Washington, Jan. 17.—President Roosevelt was given a great ovation when he addressed the delegates to the national convention for the extension of the foreign commerce of the United States. The president said: "The United States holds, and must hold, a peculiar position in the western hemisphere. This position must never be one of oppression nor aggression toward her weaker neighbors. It must be one of helpfulness toward them—of helping them to stand on their own feet. Under Mr. Root's guidance we are now endeavoring to secure by treaty with Santo Domingo an arrangement designed to make it absolutely unnecessary for this country ever to think of intervening in Santo Domingo, because it is an effort to prevent the possibility of the occurrence of conditions there which would necessitate such intervention."

SEN. FORAKER'S VIVID PICTURE BY SEN. CARMACK

ANOTHER SENATE DEBATE OVER THE COLORED SOLDIERS CREATES HILARITY.

Ohio Senator Portrayed as a Peripatetic Volcano in Perpetual Eruption.

Washington, D. C., Jan. 17.—Defending President Roosevelt's act in discharging the members of the Twenty-fifth infantry, Senator Carmack of Tennessee yesterday addressed himself in terms of scathing sarcasm to Senator Foraker of Ohio. He scored him for waving the bloody shirt of sectional hatred.

"But I will not do the senator the gross injustice," he said, "to judge him by the words out of his own mouth. He is not as fierce as he seems to be; his ferocity being purely of the oratorical sort.

"In the language of the apostle Senator Carmack referred to him "As having a zeal for man, but not according to knowledge."

Continuing, he said: "I can remember with what frantic energy he used to wave the bloody shirt, a shirt dyed with the crimson current of his own rhetoric; I remember how he used to go raging over the land a bifurcated, peripatetic, bob-tailed volcano in perpetual eruption belching forth fire and smoke and molten lava in agonized and tumultuous volleys."

This aroused the hilarity of the Senate and the galleries.

"He may be God Almighty to the Republican party of Ohio," he declared with dramatic effect, "but he does not yet sustain that relation to the universe." Senator Foraker sat through Senator Carmack's speech with perfect composure and no indication of ruffled temper.

Carmack continuing, turned to Senator Foraker's criticism of Major Blocksom which he said was due to the fact that "his father was a Democrat."

"I can remember how in public speeches he spattered the gall of his bitterness on the south until I came to think that the senator wished all the white people of the south, men, women, children and babies at the breast, had but a single neck, that he might sever it at a blow. I would not have to go back 40 years or make any inquiry into the senator's pedigree to prove by such evidence that the senator from Ohio is the last man to sit in judgment in a case of murder where a negro was the murderer and a southern white man was his victim.

"His ferocity is purely oratorical, it is simply the lingering force of a tyrannical habit.

"If the senator from Ohio could convict the President of the charge he has charged against him, that of inflicting harsh and brutal punishment, without any authority of law, then," continued Mr. Carmack, "he will have placed the president on an eminence of infamy from which no man can take him down."

Mr. Carmack said the movement now in progress was to wrest Republican leadership away from Mr. Roosevelt and restore it to those who previously controlled it. He said that that movement would succeed and that the present attitude of the party, in supporting the side of the people, would soon seem to the leaders like a hideous nightmare. "You must renominate Theodore Roosevelt!" he shouted, "or you must give us back our platform."

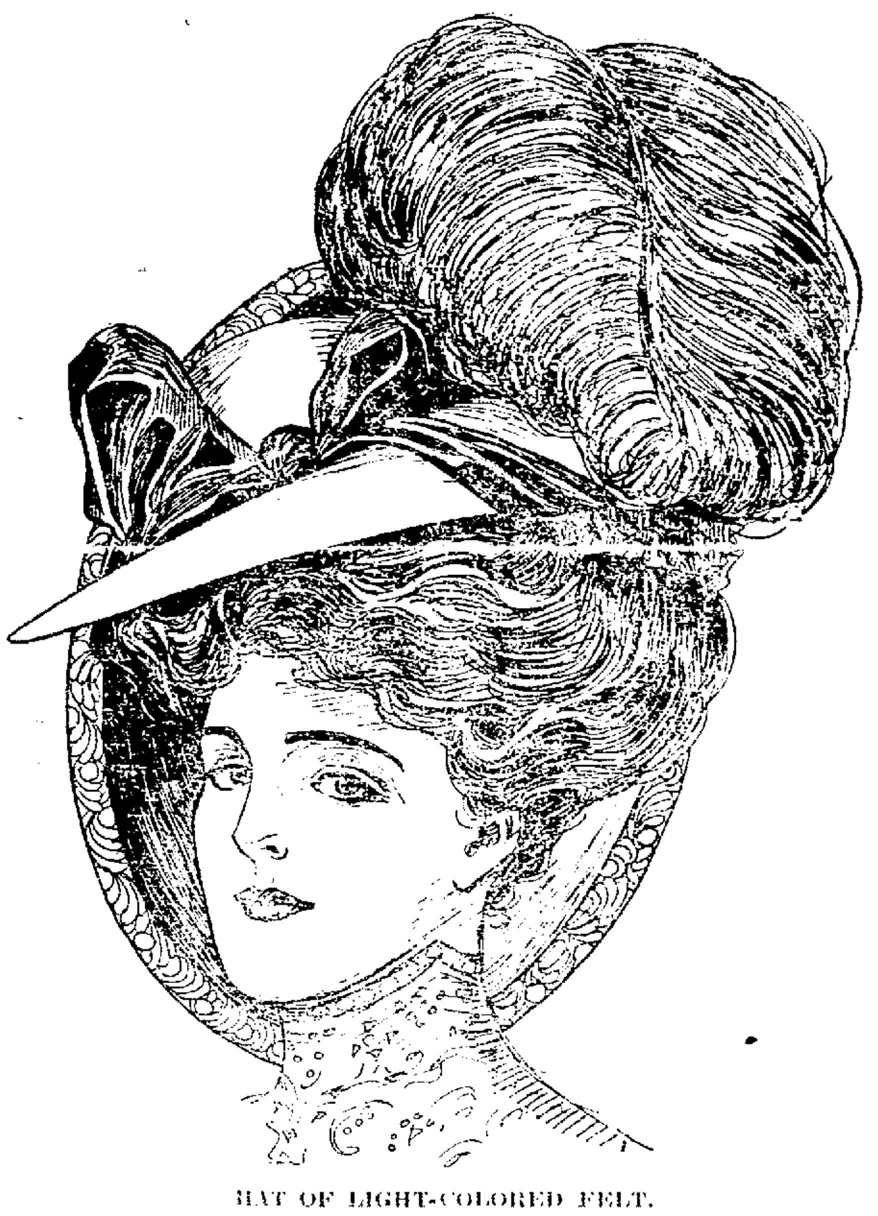
COMPLETE BACKDOWN BY SENATOR FORAKER

Washington, Jan. 17.—In the senate Mr. Foraker (O.) offered a substitute for his previous resolutions on the Brownsville affair, as follows:

"Resolved, That the committee on military affairs is hereby authorized and directed by sub-committee or otherwise to take and have printed the testimony for the purpose of ascertaining all the facts with reference to or connected with the affray at Brownsville, Tex., on the night of Aug. 13, 1906. Said committee is authorized to send for persons and papers, to administer oaths; to sit during the sessions of the senate, and, if deemed advisable, at Brownsville or elsewhere; the expenses of the investigation to be paid out of the contingent fund of the senate."

The language of this provision is satisfactory to Senator Lodge and other supporters of the administration in the matter of the discharge of the negro troops, and it is believed by senators that it will be quite unanimously accepted.

Senator Foraker, in a short address, said he did not like the hints which had been thrown out that his motives were other than to promote the public good. He said he had not attacked the president. He was only concerned about securing an opportunity for the men charged with crime to be heard.



HAT OF LIGHT-COLORED FELT.

The sketch depicts an attractive model for mid-winter wear, the hat being of biscuit color felt, the plumes at the left side being of tan shaded to a warm brown at the tips. The bow of ribbon used to make the twist and loops across the front was of shaded velvet, in pale orange, tan and light brown. Brown maline was ruched in across the back and side of the under brim.

CANNON'S VIEWS.

Discusses Favorably Maximum and Minimum Tariff.

Washington, Jan. 17.—Speaker Cannon extended an informal reception at the capital to 300 delegates to the convention for the extension of foreign commerce. The speaker, in an informal talk, declared that the Republican policy is to monopolize the home market and then establish a foreign market for the surplus. "Reciprocity is a sweet word," he said. "Its meaning depends upon the man or leader who uses it." He reviewed the reciprocity labor of Mr. Blaine and showed how the Democratic party, as he said, undid Mr. Blaine's work. A statement of Mr. Cannon that maximum and minimum tariff is practicable was greeted with applause, and the speaker explained how carefully such a tariff must be drawn to ensure protection to American interests and clothe the chief executive with power to retailate when other nations discriminate against the products of the United States. Mr. Cannon declared that the maximum tariff would be "a big stick," to be used in compelling other powers to behave themselves.

Family Troubles.

Washington, Jan. 1.—E. F. Vaniteson was shot and instantly killed at the National museum by Otto Sellhorse of Philadelphia. Sellhorse was arrested. It is understood that the affray was the result of family troubles.

National Board of Trade.

Washington, Jan. 17.—The convention of the National board of trade elected officers for the ensuing year, as follows: President, Frank D. La Lanne, Philadelphia; first vice president, Ambrose Swazey, Cleveland; second vice president, P. M. Estes, Nashville, Tenn.; treasurer, W. R. Tucker, Philadelphia. The board of managers will be appointed by President Lalanne, and they will name the secretary.

France has more money in circulation in proportion to its population than any other country.

Hay's Hair Health

Miss Fannie McWamee.

RESTORES your HAIR to its NATURAL COLOR.

Miss Fannie McWamee, Lake Geneva, Wis., writes of HAIR HEALTH:

"My hair had been gray ever since I was sixteen years old. It started to get gray right on the crown of my head, was dry and full of dandruff, and my scalp itched dreadfully. I used HAIR HEALTH according to directions and my hair is now soft and glossy and very few gray hairs left. I do not think I could get along without HAIR HEALTH now, for it is such a fine hair dressing.

Guaranteed perfectly pure.

[illegible] England [illegible] girl [illegible] United Kingdom, at least 7,500 [illegible] city of London. Most of [illegible] under 25 [illegible] of age and [illegible] $1.25 to $[illegible] a week.

Cork forests exist in several parts of Morocco, and when order is established, and the cost of transport is lessened by the construction of roads and bridges, these forests may well be turned to profit.

Laxative Iron-ox Tablets

Are best for Children's Bowels

Do not dose them with salts and griping pills, which are too strong in effect, and literally tear their little insides to pieces, leaving the bowels weakened, and less able to act naturally than before.

Laxative Iron-ox Tablets are the children's favorite laxative, chocolate coated tablets, easy to take, never gripe or nauseate.

"I find the Tablets splendid for Constipation. My three children, aged 3½, 9 and 11 years, get a tablet every day, and I myself, use them. Laxative **Iron-ox Tablets** will be a part of our daily requisites." SAMUEL EVANS, 373 W. 126th St., New York, N. Y.

Parents should see to it that their children have one natural easy movement of the bowels each day. Laxative **Iron-ox Tablets** tone and strengthen the bowels, and stimulate all the little organs to healthy activity, so that nature can do her own work.

10c, 25c and $1.00 at all drug stores, or by mail. Satisfaction guaranteed or money refunded.

LICKING.

Mrs. James Ford had an alarming attack of neuralgia Monday. Timely aid from their physician gave her relief, but she is yet quite poorly.

Drilling has begun on No. 4 well on the I. N. White farm for Heisey & Company.

On account of the almost impassible condition of the roads the special meetings arranged for by the Licking church have been postponed for the present. Rev. Mr. Bennet of Newark is to assist when the meetings are held.

Mr. J. C. Hanby had the pleasure of a visit from his brothers Benjamin and Alfa of Perry county over Sunday. They brought with them several nephews and nieces from Van Wert county, for whom a very pleasant party was made on Saturday evening. The young folks left for their homes in Van Wert, Monday.

Frank Hillbrant and James, his son, have both been victims of the grip recently.

The long distance telephone and telegraph men are preparing to set poles and stretch wires through here this week. There are a number of teams hauling poles and they are having a muddy time of it.

Miss Rachel Brown, who had nearly recovered from a sick spell of several weeks, was again compelled to have a physician recently on account of a very sore throat.

Dogs have been making havoc with sheep here within the week. Two dogs were found in Charles Ruffner's flock in daylight, killing one or more and injuring several others, and on Sunday night a flock of 32 was nearly ruined, only six being entirely uninjured and 9 were killed. This flock belonged to Spencer Phillips of Newark.

Mrs. Zane Watts has been confined to her bed several days with chills and fever. She is improving slowly.

Mrs. Jessie Brown went to Port Washington last week to care for her sister-in-law, Mrs. Dr. Fred Larimore, who is a great sufferer from stomach trouble, and is to take special treatment for it.

Fred Blade entered the Bliss Business college at Newark this week.

Pastor McCall who has been troubled with laryngitis for several weeks, brought on by a severe cold, is much improved.

James Black and son Fred are both employed in stringing poles for the long distance telephone company.

prevailing cold

William Lawyer is a victim of the

Miss Jennie Bell has been quite poorly for some time at the home of Mr. John Deeds.

The Women's circle of Licking church enjoyed a splendid meeting last Thursday with Mrs. Willis Ross. The comfort they had on hand for Mrs. [illegible] was finished and another was planned. The next meeting will be at the parsonage Thursday afternoon, Jan. [illegible].

Lester [illegible] is suffering with the prevailing influenza.

Roy M., son of Mr. and Mrs. T. H. Cole, has been under the care of the family physician for several days. He is better at this writing.

The mail carriers are having the most trying experiences with bad roads since the routes were established.

There will be [illegible] at Union Chapel Sunday evening [illegible] side next Tuesday evening.

LICKING AGRICULTURAL SOCIETY

Thomas W. Wilson was the First President Upon its Organization in 1832, and Israel Dille was the First Secretary---Present Society Organized in 1848.

The first Licking County Agricultural society was formed in 1832. General Thomas W. Wilson was elected president, and Israel Dille, secretary The society held a fair every year on some outlot or lands adjacent to Newark the above named officers continuing to act as late as 1838, and probably later. The late Lucius Case and the late E. S. Woods served this first society as treasurer during a portion, at least, if not during the whole time that it continued to hold annual fairs, which was, as above stated certainly as late as 1838. The records of 1834 show that the former was then treasurer. Israel Dille, Esq., delivered addresses at the fairs in 1833 and 1834.

The list of premiums awarded at the fifth anual fair held on the 9th and 10th of October. 1837, aggregated only $99.50. Five dollars was the largest premium awarded to any one person, very few receiving even that small sum, and all were paid in salt spoons, desert spoons, tea spoons, sugar tongs, sauce ladles, cream ladles butter knives and the like. The editor of the Licking Ohio Democrat (Mr. Clark Dunham), of date November 15, 1837, says: "The fair went off with its usual eclat, and that he was pleased to see that interest taken in the society, which the good it is annually accomplishing, renders it worthy of receiving. The society during the five years in which it has been in operation, has exerted a very beneficial influence upon the farming interest, which may be seen in the improvement of stock, particularly in cattle."

How long the society continued to hold annual fairs after the one named held in 1838, it is impossible to state with certainty. But it is known that the anaual fairs were omitted for a number of years before the organization of the present society, which was established in 1848. In brief, the original society of 1832 died some years before the organization of the present very flourishing society, in 1848, but just when it "ceased to be" is not known; but it certainly was between the years of 1838 and 1848 It had its day, served its generation well in a small way, accomplished some good, and died, probably a victim to the political tornado of 1840.

The present Licking County Agricultural society was organized in 1848. The preliminary steps for its organization were taken at its monthly meeting in January, 1848, by the Madison Township Farmers' club, which, on motion of James H. Moore, deceased, appointed a committee of three to prepare an address in favor of the encouragement of agriculture by the establishment of a county agricultural society. The committee which consited of Judge William O'Bannon, David Smith Esq., and the secretary of the club, Mr. B. F. Wheeler, acted promptly and their address was published in the Newark Advocate of February 5, 1848, accompanied by some favorable editorial remarks. The address concluded with a resolution calling upon the farmers of Licking county to meet on the ensuing fourth day of March at the Court House in Newark, for the purpose of forming themselves into an association for the advancement of the interests of agriculturalists in the county. The meeting was held, its officers being General Jonathan S. Taylor, president; Judge O'Banonn, vice president; and Mr William S. Wright, secretary. Thirty-three persons present at that meeting manifested a wish to organize a county agricultural society, and an association was organized with the election of the following officers: Thomas W. Wilson, president; Henry C. Taylor, vice president; Israel Dille, secretary; E. S. Woods, treasurer, and Elisha Warren, F. N. O'Bannon, Benjamin Turner, J. H. Moore and William S. Wright, were chosen as directors

The first fair under the new organization was held October 11th and 12th, 1848. Premiums to the amount of one hundred and fifty eight dollars and fifty cents were awarded. Addresses were delivered by Israel Dille, Esq., and by M. B. Bateham, Esq., editor of the Ohio Cultivator, an agricultural paper published at Columbus. The members of the society this year numbered 187. James H. Moore was the representative to the state society. So much for the organization of the Licking County Agricultural society and the first fair held in 1848, succeeding the original society which was organized in 1832

GRANVILLE LETTER ALIVE WITH NEWS

FRANKLIN AND CALLIOPE SOCIETIES WANT JOINT DEBATE WITH HIRAM.

Class Basket Ball Teams Organized---Silver Medal Contest Won by C. J. Hazen.

Granville, Jan. 17.—The classes of the college and academy have organized their basketball teams for this season, by electing the following officers:

Seniors—Manager not elected, captain not elected.

Juniors—Manager, C. C. Holloway; captain, R. C. Ditto.

Sophomores—Manager, Carl Rockwood, captain, Harry Pine.

Freshman—Manager, H. A Kesler; captain, Zoe Brown.

Academy—Manager, J. W. Parker; captain, W. C. Coe.

Two games will be played each Wednesday afternoon, commencing January 23, and continuing until February 20. The price for season ticket is 50 cents, which is good for admission to all class games. Single admissions are 15 cents Below is the schedule for the season:

January 23—Seniors vs. Freshmen; Juniors vs. Sophomores.

January 30—Juniors vs. Freshmen; Seniors vs. Preps.

February 6—Seniors vs. Juniors; Sophomores vs. Preps.

February 13—Seniors vs. Sophomores; Freshmen vs. Preps.

February 20—Juniors vs. Preps; Sophomores vs. Freshmen.

A silver medal contest was given Wednesday evening, January 16, at 8 o'clock, in the Baptist church, under the auspices of the Woman's Christian Temperance Union. The following program was given:

Invocation—Dr. C. J. Baldwin.

Recitation, "The Modern Cain"—Lily B. Sefton.

Recitation, "The Court of Last Appeal"—C. J Hazen.

Solo—Mrs. King.

Recitation, "The Poor House Man"—H. R. Porter.

Recitation, "The Man Man"—T. Reese.

Solo—Harold Thomas.

Recitation, "Infirm of Purpose"—"Give Me the Daggers"—Clarice Carroll.

Reading, "Christian Patriotism,"—Ula Johnson.

Solo—Mrs. King.

Music—Miss Benedict.

Presentation of Medal.

Benediction—Dr. Eason.

The medal was won by Mr. C J. Hazen, and honors were given as favors to the other contestants.

Following is the schedule of the Denison basketball team for the season of 1907:

Jan. 18—Otterbein at Granville.
Jan. 19—O. M. U. at Columbus.
Jan. 25—Hiram at Granville.
Feb. 2—O. W. U. at Granville.
Feb. 9—O S U. at Granville.
Feb. 11—Wooster at Wooster.
Feb. 15—Hiram at Hiram
Feb. 23—Wooster at Granville.
Feb. 27—Miami at Granville.
March 2—Otterbein at Westerville.
March 7—Miami at Oxford.
March 8—St.Mary's Inst at Dayton
March 9—Wittenberg at Springfield
March 16—Open.
March 23—Kenyon at Granville.

A joint committee of Franklin and Calliope has carried on the negotiations with Hiram college for a debate to be held on or about February 25 in Granville. The question has been submitted to us. It is: "Resolved, That the policy of the United States should be tariff for revenue only." We shall not choose our side until after the preliminary contest, which is set for Friday night The same question will be debated then as in the final contest.

Dr. Hall, head of the medical department of Northwestern University, will address the male population of the town and college at the Town Hall on Sunday afternoon at 3 o'clock. On this occasion he will discuss personal purity from a physical standpoint. All men and boys over 16 years of age are invited to attend. The Y. M. C. A. under whose auspices the lecture will be given, is fortunate in securing the services of so eminent a speaker and scientists.

Dr. Charles A. Eastman, the Indian, who comes on the Granville lecture course Tuesday, January 22, is the ablest living exponent of Sioux life and character. His characterization of the real Indian as a "gentleman of the woods" is fascinating, indeed His easy manner, his natural gestures, his good control of English are worthy of an educated Anglo-Sioux.

The members of the Phi Gamma Delta fraternity entertained at dinner Wednesday evening the following young ladies: Misses Blanche Fulton, Bertha Latimer, Edith Williams, Frances Priest and Miss Farrar.

The members of the Beta Alpha Delta entertained at their house Wednesday evening at dinner the following young ladies: Misses Mary Dickinson, Beulah Rector, Mildred Hunt, Ruth Allen, Lottie Graham and Leila Montgomery.

Pictures are now being taken of the various classes by Mr. Treslze, on the third floor of Science Hall, which will be put in the Adytum, the college book edited yearly by the Juniors.

Altamaha lodge No. 296, Knights of Pythias, had another big meeting on Wednesday night of this week. There was a large attendance of the members and quite a number of visitors were present. Six petitions for membership were received and the Esquire rank was conferred on four candidates. At the conclusion of the work a fine banquet was enjoyed.

Miss Grace Thompson, a charming young lady of Ironton O., who has been visiting here for several days, has returned home.

William Palmer, a prosperous young business man of Cincinnati, was here on business Wednesday.

Mrs. James Southworth and little daughter Alma of Hamilton, Ohio, who has been visiting relatives in Newark for some days, was in town for a short time Wednesday.

REWARD OFFERED FOR MURDERER

Two More Arrests Made of Men Who, It is Alelged, Know Something of Crime.

Lancaster, O., Jan. 17.—A special meeting of the city council was held here Wednesday to consider the matter of offering a reward for the murder of Charles Miller. When the meeting was called to order the city solicitor was asked for his opinion and he stated that he did not think that council had a right to offer any reward. He asked for time to look into the matter more fully, and the meeting was adjourned until 10 o'clock when they again met and the solicitor stated that he was very positive that no reward could be offered by the council.

After some discussion it was decided that the president of the council appoint a committee of five professional and business men who would solicit funds, the same to be placed in the hands of the chief of police and to be given as a reward.

The county commissioners at their session Wednesday, offered a reward of $500 for the arrest and conviction of the murderer. Two more arrests were made in the case Wednesday, but the officials refused to say anything about them and even refused to give the names of the prisoners. It is claimed that they know something of the crime and will be put in the sweat box to find out what they know There is considerable feeling in the matter, and the police are working overtime trying to get some clew to the guilty party.

Every Man His Own Boss.

"When did Henpeque get a divorce?"

"Why, he isn't divorced. What made you think so?"

"Well, he was talking about the unalloyed satisfaction at his time of lift of being his own boss."—Judge.

Long Drawn Out.

The Doctor—A friend of mine has been engaged to a girl for nine years.

The Lawyer—That's the longest term of court I ever heard of.—Houston Post.

Strike of switchmen on the Buffalo Creek railroad was settled and the men returned to work. The men won their point—recognition of union.

The present occupant of the original Washington plantation in Westmoreland county, Virginia, is named George Washington.

AMUSEMENTS

NEIL BURGESS.

Notwithstanding the fact that "The County Fair" has been presented many times in large cities, for it is greater and stronger than ever with new and elaborate scenery and a stronger cast, with Mr. Burgess personally in the leading role as Abigail Prue, that character has made him famous. The story is one which contains all the material tints of rural farm life, a view of sunny hills, green trees and a homely farm house and a well stocked barn with cows and horses, are realistic features remarkably vivid, while the race track scene with the exciting contest between four thoroughbred horses is one of the most stirring and exciting pieces of stage ingenuity. The corn husking bee is another scene which is remarkably lifelike. Mr. Burgess, who is personally making a tour of the larger cities through the south and west, under the well known management of Messrs. Sutherland and Tower, is given quite an ovation when he appears in the character of Miss Abigail Prue, the shrewd spinster. Mr. Burgess, who is extremely funny ably displays his comedy talent and keeps his audience laughing continually.

HI HENRY'S MINSTRELS.

But few amusement organizations are better known or more strongly endorsed than Hi Henry's Famous Aggregation of fifty all white people. They will appear at the Auditorium on Saturday, matinee and night, January 19. Each season this popular show has expanded unill now the Hi Henry show is one of the leaders in the minstrel line. They carry this years tons of special scenery, elegant stage settings and accessories, the latest mechanical and electrical motion effects—passing clouds, rising moon, twinkling stars, rippling waters, cascades and fountains, thus adding life and movement to scenes that heretofore have been cold and dead, because inanimate. Hi Henry's minstrel first part is pronounced the finest ever seen in minstrelsy. It is a fanciful idea of the palace of Aladdin, from the story of the Arabian Nights—a lofty imposing palace of pearl and gold, glittering in the moonlight, and lighted with prismatic lights of every hue; the grand ensemble, in their gorgeous costumes, the beautiful music, singing, dancing, marches and display proving grand beyond description. Reserved seats for this most excellent show are now on sale.

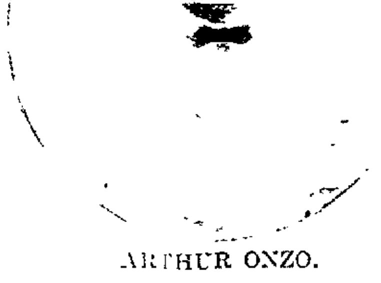
THE SOUTHERN VERDICT.

"The Clansman" a play of the South, was submitted last year to the verdict of Southern audiences before invading the North. That verdict was overwhelmingly favorable both sentimentally and financially, consequent upon which "The Clansman's" reception in the North fairly duplicated its Southern success. For many years to come "The Clansman" will remain in the Southern classic as firmly identified with Dixie as Waverly is with Scotland, Adam Bede with rustic England, or Old Homestead with New England. The great epic of the South is sure to be greeted with packed houses when played at the Auditorium on Thursday, January 24.

THE ORPHIUM.

This week's vaudeville features at the Orphium are giving the best of satisfaction, and each performance is greeted with a large audience, many of whom come the second time. The management has on display hundreds of beautiful pieces of chinaware, bric-a-brac, etc, which will be presented to those attending the Friday matinee, which will begin at 3 o'clock. Wednesday afternoon Tulsa, the girl with the big black eyes, was compelled, owing to a break down at the electric light plant, to do her turn by the use of candle footlight, but the act went very well. Onzo, the barrel jumper and table athlete, is still receiving great applause on his dangerous feats. The entire company participated yesterday in a skit presented for theh first time, entitled "I Do Love Grace." This skit will probably not be repeated again this week.

Friday night will see a number of new amateurs striving for the prizes offered by the Orphium for the best dancers, singers, etc.



ARTHUR ONZO.

This young athlete delights the people with dangerous and cleverly executed feats with barrels, chairs and tables, some hair-raising jumps being made while the performer is blindfolded. He is busy for 10 minutes, working entirely alone.

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.
F. J. CHENEY & CO., Toledo, O.
We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm.

Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.
Take Hall's Family Pills for constipation.

NEW YORK CITY.

The police of New York city arrest 122 persons each day for intoxication.

It is estimated that $130,421,505 will be required to pay the running expenses of the city for the year.

New York city burns 110,000 tons of coal a year to pump water into the public reservoirs in Brooklyn, Queens and Richmond boroughs.

Brooklyn has more amateur dramatic societies than the other four boroughs of the city together and has more baby carriages and rubber plants in proportion to population than any other borough.

New York city's fashionable population first took root in Bowling Green, moving thence to East Broadway, Bond street, Bleecker street, Astor place, Washington square, Fifth avenue and now gives only four months each year to city life, being in the country, at estate or in Europe for eight months.—New York Herald.

King Edward's chef, M. Menager, has a salary of $9,000 a year, besides free lodging near the palace. He does nothing in connection with breakfast, but devotes his attention to preparing dinner, which is served at 9 o'clock.

On January 1st, the wages of coal miners in the Southern Colorado districts were advanced ten per cent Over 6,000 men are benefitted. The increase amounts to $600,000 a year.

INFLAMED EYES

redness, granulation or soreness, whether chronic or caused by wind, dust or sun, is distressing.

Have you tried PAXTINE Toilet Antiseptic for this?

It quickly relieves the inflammation and by strengthening the mucous membrane of the eyelids prevents re-occurrence of the trouble.

Being non-alcoholic it is non-irritating, especially soothing and comforting; different and better than anything else.

Frank D. Hall, Druggist, Newark, O.
